Tt feels like just yesterday when both new students and returning ones moved into the residence halls and off campus housing in this small college town. Sunday, September 6, 1998, a late summer day, normal for most, but an exciting beginning for many new ONU students and their parents as they travelled to Ada in packed cars. Christen Jackson, a freshman musical theater major ove-in dav

remembers her move-in day. "Being from Colorado, I had to limit the amount of stuff I could bring across the country. I think I did okay because everything seems to fit in my room in Clark Hall."

Some of the freshmen anticipated a new life with more freedom and greater responsibility than they had ever known in high school. No matter how far they traveled or how scared they were, there were many people willing to aid in the transition from sheltered childhood to ambitious adulthood. New students met their resident assistant and head resident as well as many Good News Bears. They were welcomed to their new campus family, their home away from home.

E xchanging greetings, Joe Richards, Chris Marcum, and Matt Pope make sure they have everything moved in, before relaxing.

New students also had the u opportunity to meet and start w

last

to get to know the roommate they would live with for the next nine exciting months.

The efollowing day upperclassmen returned to campus to settle

in for the upcoming academic year. After the last refrigerator, computer and couch made its way to the individual rooms of the residence halls or off campus houses, many hours were spent

unpacking and catching up with friends. "Move-in day

was easy for me because I left a lot of stuff in my fraternity house over the s u m m e r. Basically I spent the day helping some freshmen move in" said junior Steve

Miller of Delta Sigma Phi. Fraternity house, sorority house, apartment building or residence hall, move-in day was successful and students could look forward to the exciting year of classes ahead.

With a huge grin on her face, freshman Angie Zinser receives her fist official greeting from President Freed.

Hurriedly trying to move into her room, Whitney Collins carries the last remaining items from her car.

Getting ready for the incoming freshmen, Founders Hall RAs Tara Drouhard and Jen Thieme take a little break before move-in day begins.

Boy, would the world be different!

Did you

The first visitation policy, established for the 1979-80 school year, included a statement that members of the opposite sex could only visit rooms between 7 P.M. and 1 A.M. on Friday, noon and 1 A.M. on Saturday and noon and 6 P.M. on Sunday.

Mary Rinkoski

Il night parties, optional Class with no grades, coed residence hall rooms, catering by the Olive Garden— What would campus be like if students ruled the school? We whine about the cost, the food and the classes, but could we really survive with a student in command? "It depends on what student was in charge,"

students

said P2 April Bays, "Some people would do a really good job and some would let the school go crazy." It never hurts to dream though, and some students shared what life at ONU would be like if they were in charge.

Adam Caskey, junior civil engineering major, said he would lower the price to 15 thousand, enlarge residence hall rooms (at least for Clark Hall men) and would put

a computer in every Junior room. philosophy major Jamie Minter would require students to evaluate their academic advisors if he were

"All

grades,

Garden..."

can make a student's academic life much easier."

Some students feel that commuter parking is an issue. Amanda Rybarczyk, a s e n i o r

international business and economics major, wants an underground parking garage built at Huber. "Even when I am able to find a parking space,

in charge of the university. "A I almost get hit by tractor competent academic advisor trailers when I try to cross the

night

coed

Alumni streamedonto campus and spirits soared as students geared up for the 1998 homecoming festivities. The weekend kicked off with the customary torchlight parade and bonfire. Students, cheering and clapping, followed the Ohio Northern marching band to the bonfire where President Freed, the football team and others waited. many Following this year's theme of "We'll Keep the Light on For You," the pep rally glowed with the light of the fire. Many glow sticks also lighted the air, and the atmosphere burned with ONU school spirit.

After the bonfire, students rushed to grab a spot

omecoming weekend

for "Battle of the Bands." Spilling out the rear of the Activities Room, students cheered on their favorite of the seven bands competing in this year's competition. The Christian band Stained Glass took first place, hip-hop,

band Anti-Man took second and Minaretas, playing Dave Matthews Band covers, took third.

The activities started at 10 a.m. Saturday morning as the homecoming parade wound its way from North Main Streetto campus. Paradegoers yelled across the street to friends they hadn't seen since last year, and ONU alumni reminisced about past collegeadventures. The floats of various organizations highlighted the parade including SigmaPhi Epsilon's winning float picturing a replica of their fraternity house accompanied by a huge polar bear. SPC walked the parade route handing out orange megaphones and candy.

The ONU Polar Bears

took an early lead in the 1:30 name of the football game against entry. The Muskingum and

"I was honored to

extra special."

neverlet go. The Bears led the entire game finishing with a score of 35-28. During halftime, Korey Kidwell and Stephanie Shrider, the 1997 King and

Queen, gave up their crowns to the 1998 King and Queen Jason Kline and Natalie Schneider.

"I was honored to receive the crown. And being crowned by Shrider, who was head residentin Maglott when I was an RA there, made it extra special," said newly crowned Queen Natalie Schueider.

Also at halftime, Student Senate president **Danielle Yurkovich** announced **the**

name of the winning mascot entry. The previous week,

students were invited to submit possible names for our mascot, the winner receiving \$25. After the presentation of King and Queen, the ONU polar bear was

christened Klondike.

The exciting weekend drew to a close with the performance of New Rascals on Saturday evening and Common Ground, the sequel to Riverdance, on Sunday evening at the Freed Center for the Performing Arts. Cars full of tired and happy alumni pulled away from campus at the end of another eventful homecoming weekend.

Supporting the foot by a l l team, Craig Mehl (O), Jason Latham (N), and Luke Holloway (U), demonstrate how they have learned to spell their favorite team.

Excited about Homecoming, the Alpha Xi Delta's float is "beary" special.

Waving to spectators, the WONB bear (opposite page) shows its school spirit.

Charging onto the field, Brad Flowers is fired up for the homecoming game as he runs through the human tunnel. Ready to take the field, the greatest marching band in the land prepares for an exciting halftime show.

The end of an era

Did you know...

President Freed has a Ph.D. in nuclear science from the University of New Mexico. He did his undergraduate studies at the United States Military Academy, West Point, where he was also a successful track athlete. In addition, he has twice received the Legion of Merit from the U. S. government.

Stephanie Jackson

hio Northern University's ninth president, **Dr. DeBow**Freed, retired at the end of the 1998-99 school year. During his 20-year tenure, Dr. Freed strengthened academic programs, significantly increased the endowment, upgraded the physical plant and supported students in their endeavors.

Not one to talk about himself, Dr. Freed did sit down and discuss the life he and his wife, **Catherine** have led, his career, and his heritage.

When asked about his heritage and his parents, Dr. Freed said that his family was originally from Europe. "DeBow" actually translates to "the woods" in French. He grew up on a farm in Tennessee and remembers that his mother could write Latin fluidly and quote Shakespeare endlessly.

resident

Unknown to many on campus, Dr. Freed's hobby is foreign policy. He receives journals on foreign policy daily and enjoys keeping up with the latest news.

Dr. Freed's early career was as a scientist in the military. He was involved in many projects dealing with

the peaceful use of nuclear power. These projects ranged from analysis of reactors, to long term space travel, to radiation devices for cancer patients. Dr. Freed eventually returned to West Point and chaired the physics department there. After military service, Dr. Freed was Dean at Mt. Union College, then served as president of Monmouth College in Illinois before coming to Ohio Northern in 1979. Mrs. Freed graduated Phi Beta Kappa from the University of Texas and received her masters degree from the University of Kansas. While at ONU, she chaired the ONU Women's Christmas Arts Festival, which raises money for scholarships. She was also an adviser to Kappa Phi and worked closely with Mortar Board.

During Dr. Freed's tenure two successful capital campaigns were completed and \$75 million was raised for endowment, buildings, and the annual fund. Additionally, the endowment grew from \$7 million to \$100 million.

Furthermore, the physical plant has been expanded and is both attractive and functional. General renovations were made to all the residence halls, the chapel, McIntosh, Huber and Hill buildings. Additions Dukes, Presser, Biggs/Meyer, and the Colleges of Pharmacy and Law helped keep programs

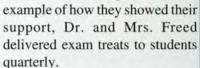

competitive, and the Sports Center was built to accommodate the growing interest in health and wellness. To show appreciation for all their efforts, the trustees named the new Performing Arts Center for DeBow and Catherine Freed.

Dr. and Mrs. Freed changed the face of Ohio Northern by being strong supporters of the arts. The symphony orchestra just finished its third season, and the popular musical theatre program began only 9 years ago. The ONU dance troupe debuted, as did the Northernaires.

Anyone who attends campus events knows that the Freeds' weekends were full of ONU functions. They attended as many University events as possible

and considered themselves lucky not to have to go far for quality music, drama or social events.

Students are the reason the Freeds were and still are so dedicated to ONU. They believe in encouraging young people to meet and elevate their goals. In fact, the Freeds know the names of most students on campus. As an

The students, faculty and staff of Ohio Northern will greatly miss Dr. Freed's untiring leadership. ONU will reap the benefits of the Freeds' dedication and hard work well into the future. His attention to detail and his focus on excellence have led Ohio Northern to be recognized as a premier, private university. To alumni and visitors, Dr. Freed always said, "Welcome back and we hope you visit often." The ONU community now says the same to the Freeds.

Sharing an intimate moment, Dr. and Mrs. Freed enjoy each other's company at a campus event.

The legacy begins!
President Freed stood next to the seal of the University he would serve for the next 20 years.

The original gymnasium was in the Taft Memorial building, which now serves as the technology building. The center of that gym was cut out and turned into a table that is now in King Horn.

Mary Rinkoski

ould a college so arrange its curriculum that a student could enter at his convenience and study what he wanted to study when he wanted to study it?"—Henry Solomon Lehr

Ohio Northern University, founded by H. S. Lehr as Northwestern Ohio Normal School in 1871, has journeyed far since Lehr voiced this intent. Ohio Northern University was officially started when the faculty of the Ohio Normal University transferred property to the Central Ohio Conference of the Methodist Episcopal Church, but the name was not changed until 1903. The

istory of campus

University has grown from graduating 147 students in its first 2923 vear to students in 1998. The University has grown steadily through the years, constantly adding and renovating to keep up with the

times. The College of Engineering was established in 1882, followed by the College of Pharmacy in 1884. In 1916, Sigma Phi Epsilon built the first fraternity house in Ohio for their Ohio Northern University chapter, and in 1923, the polar bear mascot first appeared on the scene. Residence halls appeared one by one -- Clark, then Lima and Stambaugh, and finally Founders in 1964. In 1959the dining portion of McIntosh was opened and students were able to eat on campus.

Recent history has also held many changes for the University. The first Tunes on the Tundra was held in 1984. In 1989 ONU saw the ground breaking for the Freed Center for the Performing Arts, and

in 1990 for the Sports Center. Many other additions and

renovationshave also occurred within the past ten years: WONB began broadcasting from the Freed Center, ONU Cable 3 began local campus television

programming, and additions were made to the Wilson Art Building, the science and engineering buildings, the Sports Center, the law building, Presser Hall and McIntosh Center.

Curriculums constantly change and different areas of study are added to accommodate the varied interests of the students. "In the four years I've been here, the English program has changed twice. Our department is making leaps and bounds," said Laura

Riethmiller, a senior English/writing major. ONU added;

The University

has grown from

graduating 147

students in its

first year to 2923

students in 1998.

journalism and professional writing majors this year and also a music business major.

Ohio Northern University has transformed from a small

college with a few students to a highly respected institution with approximately 3000 students. We have been under nine presidents, and will soon meet our tenth. But, we have never lost the dream of H.S. Lehr whose vision founded this institution. This is still a place where a student can enter at his convenience and study what he wants to study when he wants to study it. The only differenceisthattherearemore things to study and more ways to study them.

Established in 1871

Over a century of learning. The H. S. Lehr building was one of the first buildings constructed by the University.

This polar bear went 75 years without a name! Finally, in 1998, Northern's mascot was named "Klondike."

Imagine if the four walls of Sigma Phi Epsilon house could talk. What do you think they would have to say about the history of this university?

1998 brings changes

Did you know...

There are approximately 1150 university owned computers as well as about 550 student owned computers that comprise the ONU Network

Mary Rinkoski

Poodle skirts and the twist; Bell bottoms and peace signs; Slap bracelets and Bruce Springstein; Every era has a unique personality, but certain fads change from one year to the next. 1998 had its share of unique favorites, too.

Beanie Baby mania swept the country this year, carrying Ohio Northern with it. A few years ago, only the wealthy parents of a whiny five-year-old would have shelled out hundreds of dollars for a toy. Now there are people cashing in bonds to buy these multicolored bags of beans. Though most college students don't have much money left after tuition, books and pizza,

ads and fashions

"Even

the

commercials show a

bunch of twenty-

somethings swing

dancing in cargo

pants and tank tops,

this year's biggest

clothing crazes."

Gap

we have the few dollars it takes to buy a non-retired beanie. "I think I have around thirty at home, my dad buys them for me when he sees a cute one," said Marika Skarl, sophomore Wellness major. Pinky flamingo,

Happy hippo and Garcia bear smile down from the shelves of many residence hall rooms.

Music also took an unexpected twist with a return to classic swing music. Bands like the Brian Setzer Orchestra and Cherry Poppin' Daddies have people "Jump Jive and Wailing" all over the country. Swing dance lessons are cropping up everywhere as students try to rekindle this rousing dance. Even the Gap commercials show a bunch of twenty-somethings swing dancing in cargo pants and tank tops, this year's biggest clothing crazes.

In response to hit shows such as Friends and Party of Five, coffee shops are sprouting on college campuses around the country. (Though Ada still sits on the waiting list.) Good old fashioned

coffee, the founding father of these cafes, spawned more distinguished beverages like 1 a t t e s, cappuccinos and espressos. Our parents drank thick black

coffee from a thermos after pulling all-nighters, but we drink frothy flavored concoctions from the comfy couch in our favorite shop. This may exaggerate a bit, but Northern students have worn the button on the cafeteria cappuccino machine awfully thin.

At ONU and other

universities, haircuts also seems to be getting shorter and

shorter. Maybe short seems sexy, or maybe we're just realizing that faster and easier means better. "I've probably cut eight or nine inches off of my hair since my

freshman year," said senior Music major **Susan Stephens**.

1998 blew in with new ideas about what to collect, what to wear, what to watch and what to do. Soon these fads will be yesterday's news as well. The only thing that will never change is the fact that things change.

K eeping with today's clothing and eating fads, Amy Goldenberg adds another natural choice, a salad, to her menu.

Letting their bean filled pals keep them company, Jen Sarkett and Laura Janko show off some of their beanie babies.

Trading in his old computer system for a new one, John Botson stays wired and on the cutting edge.

Craving the cappuccino, Stacy Walker and Jenny Harvey fill their cups with the delight.

Relaxing in the sun

Did you know...

It takes about 15 hours of driving to reach Panama City, Fl. This was one destination ONU students traveled to for vacation.

Stephanie Jackson

Tired of snow emergencies and winter storm warnings, numbers of students reserved hotels located along the beaches of Florida and Cancun for Spring Break 1999. The only thing between students and the beach was a week of finals and 1000 miles or so. Masses of students raced to finish that last final so they could pull their summer clothes out of a box and head south.

"We made

pringbering

reservations in January to go to Panama City, Florida, because we were getting a little depressed with the Ohio weather," said **Beth Mittelmeier**, a third year Pharmacy major. Other students e c h o e d

Mittelmeier's thoughts.

Brooke Franks, an International Business major, said, "All I could think about through January and February was how warm it was going to be on the beach."

Many students left Ada on Friday of finals week and drove through the night. "We didn't care how early we got there, we just wanted to get to Florida as soon as possible," said **Darcy Shankleton**, a senior Engineering student. "We arrived at 4:30 in the morning and couldn't check in until noon, but at least we

were there."

For most Spring

Breakers, the week was relaxing in a tiring sort of way. Robyn Kruse, who went with 24 Thetas to Panama City, stated, "It wasn't that we slept in

or anything. In fact, we had very little sleep throughout the week. We were definitely Panamaniacs. It was just relaxing to not have classes or responsibilities for a while."

Students on various ONU sports teams did have

responsibilities during Spring Break. The tennis teams went

> to play in Hilton Head, South Carolina, and the baseball and softball teams went to compete in Fort Myers, Florida.

Spring Break, for most, is the best week of the

year. There are no classes, and there is usually sun and fun. Even students who worked hard during the week, like those who went on the Habitat for Humanity trips, had a great time.

"We didn't care

how early we got

there, we just

wanted to get to

Florida as soon as

~Darcy Shankleton

possible."

Dancing their cares away, Dina Patsiavos and Joe Young enjoyed some entertainment in Panama City.

Excited to be vacationing, Maggie Harvey and Stacy Wittkugle celebrate in their hotel room.

A ll gathered around the table, Kristie Ehresman, Theresa Back, Robyn Kruse, Lori Wickstrom, Megan

Tootle, Cara Campell, and **Marguerite Barth** patiently wait for their food to be served.

Getting ready to take off, Marianne Thompson, Jen Adams, and Rachel DeCapite prepare to fly down to Hilton Head, NC.

What will the future hold?

Did you know...

The average starting salary for an Ohio Northern graduate is an average of \$28,842 per year.

(Source: CaSC survey)

Beth Mittelmeier

Ten years from now we will see many students approaching thirty. To many students that is a frightening thought. It means leaving our sheltered world at Ohio Northern and entering a world of responsibility and confusion. This new world

lans for a lifetime

consists of getting a job, raising a family and s u p p o r t i n g ourselves for the first time.

Some students have a clear vision of what life might be for them ten years from now, while others have a

blank stare come over their faces when posed with the same question. Freshman Brooke Hazelbaker said, "I will be married, living in Arizona and working in a pharmacy. I will probably have a few children, too." To the other extreme freshman Tami Kelly said, "I will be living somewhere warm." Over the four or more years

Stooping as they wait for the best shot, photographers Rob Griffin and Robert Dawson are hoping to add photos from the NCAA Track & Field Championship Meet to their portfolios.

students spend at Ohio Northern their views of the

future may change. Junior L i n d s a y B r a n d o n c o m m e n t e d "I've changed my major so many times I am never quite sure what I will be doing in ten years."

No matter where our road in life leads us, we can be sure that our time spent at Ohio Northern has prepared us to handle our course. Junior **Jen Rodis** echoed the thoughts of

many students
"If you would
have asked me
about my life ten
years from now
when I was a
freshman, I
would have had
a confident
answer. My
future seems to

have been at one time a distinct illustration that becomes more distorted over time. Right now I can say that I have no idea what I will be doing in ten years-I just hope I am happy."

"Right now I can

say that I have no

idea what I will be

doing in ten years-I

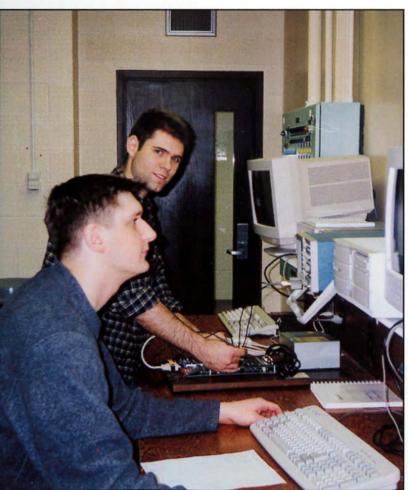

just hope I am

~Jen Rodis

happy."

Making her own predictions,
Heather Prince conducts an experiment to prove her hypothesis while she contemplates her future as a pharmacist.

Another late night spent in the lab, electrical engineering majors Mike Launsbach and Jeremy Ahijevych have decided to take the "circuitous" path to the job market.

Putting in their time at work, Tyna Allen and Tim Mullens are really working toward their future careers in telecommunications.

Where's my lucky underwear?!

Did you know..

Nineteen ONU
students claim
to have some
kind of
superstition
regarding the
sport in which
they
participate.

(Source: Yearbook survey)

Darren Drew

Whether it is wearing the same socks all season or eating the same meal before every game, most ONU athletes have superstitions. Superstitions are great because of the confidence they can instill in athletes. By having that lucky coin or special shirt, athletes feel better and thus perform better.

Freshman Ryan Brown, a member of the soccer and wrestling teams, has a lucky white hat that is his key to success. He said, "I wear it everywhere. When I forget my hat, I lose. It is pretty torn up because I never take it off!"

Eric Zint, a Pharmacy major and golf team member, has a number of superstitions.

thletes' Superstitions

He said, "Golf has to be the most superstitious sport in college. I have to mark my ball with a 500 lira coin I got in Italy. The golf ball can never have a number on it higher than four. Also, I retire whatever hat I am

wearing when I win a tournament."

Cross country runner **Bob Hlasko** has a special routine that works for him. "Before every race when I'm warming up I wear my head band on my right arm. I never put it on until right before the race," Hlasko said. "I've done this ever since I got second place in a high school race which is the first time I did this routine."

Some swimmers have some interesting superstitions as well. Laura Blue has to have blue fingernails and dreadlocks. Keri Naeger feels the need to dance behind the starting blocks before her races. Toby Hertenstein has to clap for the competition no matter what. Some athletes

rely on music to help them play well. **Stephanie Meller**

has to listen to "I Believe I Can Fly" three full times before every basketball game. She said, "If I do this, I play well. If for some reason I have to cut it short, I do not

play as well." Shannon Kindle and Alisa Dentinger sing "You Are My Sunshine" to each other before they run hurdles for the track team. "We do this to keep calm and show

each other support," Kindle said.

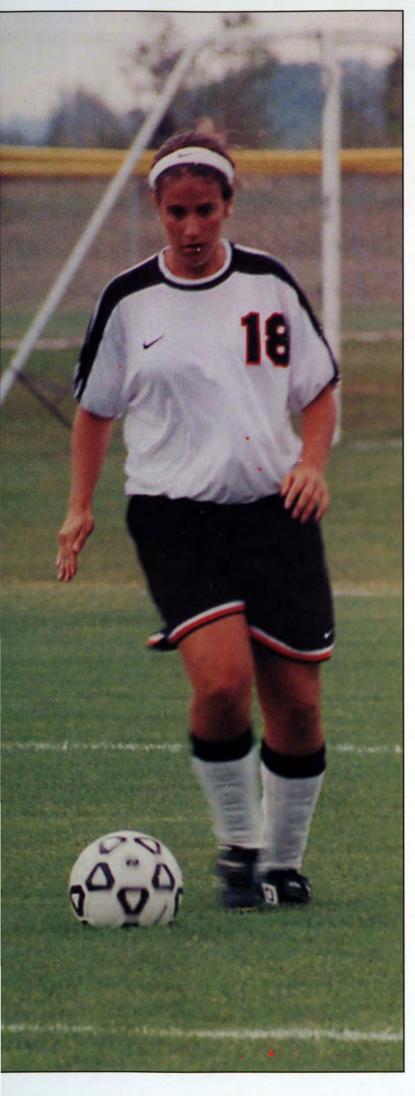

"...I retire
whateverhatIam
wearing when I
win a
tournament."

~ Eric Zint

It is hard to believe that without carrying out their superstitions some athletes will not play as well. After all, the lucky hat or traditional song is not playing the

game for them. However, superstitions put athletes in the right mindset for competition. Athletics are 90% mental; any athlete with a superstition can testify to that.

A ll alone in front of the net, Kristin Welk always sits outside of the bench area before each soccer game.

Getting ready for the big game, the women's basketball team always has to stretch at center court.

Dropping back with style, Northern quarterback Shane Franzer (opposite page) always has to wear an armband when he plays.

Coming around the bend, Bob Hlasko always wears his headband around his right arm up until the start of his race.

Exciting times in theater

Did you know...

Northern owns the "Welty Collection" of porcelan art, part of which is on display in the Freed Center. The collection was compiled and is named for Colonel Elmer Welty and his wife, Lyla. Colonel Welty attended the ONU college of Law from 1924-26.

Christen Jackson

This year was extremely lively for Ohio Northern's Theater Department. Many new events were posted. The production of Swan Lake performed by the St. Petersburg Ice Ballet turned the Freed Center Stage into a sheet of ice. Another event, featuring special guest speaker Stuart McLean, entertained the audience with selected stories

reed Center productions

from his many books. These are just a few of the many special guest stars and performing troops that have been welcomed into the Freed Center for the Performing Arts.

Let us not discount, however,

the wonderful productions produced by Ohio Northern's own Theater Department. The production of John Osborne's Look Back in Anger, which was directed by guest director Catriona Macphie, an annual visitor from Edinburgh, Scotland, was highly attended and thoroughly enjoyable. Another of Ohio Northern's annual events, the ONU Holiday Spectacular, brought the holiday spirit to Ada. Freshman musical theater

Having fun and fundraising

Did you know...

Each Greek chapter donates money to a national organization. Some of these groups include the Susan G. Koman Breast Cancer Association, the March of Dimes and the Multiple Sclerosis Society.

Beth Mittelmeier

any ONU students are learning that college is not just about books and exams and that learning does not only take place in the classroom. They have learned that giving of themselves is as important as any other aspect of their education. Ohio Northern has many service opportunities available which students can volunteer for. Whether they choose to join an existing organization on campus or just participate in a service project or fundraiser sponsored by one of these groups, students can reeks in philanthropy

be active in many philanthropic events.

Every Greek chapter at ONU has a national philanthropy for which they raise money. The chapters sponsor at least one major service project

during the school year in which all ONU students can become involved. Kappa Alpha Theta's "Theta Twister" earns money for Court Appointed Special Advocates (CASA), their national philanthropy. Delta Zeta sponsors "Turtle Tug," Zeta Tau Alpha cosponsors an egg drop with Sigma Pi and Alpha Xi Delta raises money for Choose Children in a "Fuzzy Football Tournament." Most Greek organizations also help the environment by participating in Adopt a Highway. During Greek Week each year the entire Greek community comes together to raise money

for a common organization— The Pediatric AIDS Foundation.

This year's goal was to raise \$1000, and the G r e e k c o m m u n i t y surpassed this amount with \$1250.

Stephanie Jackson and

Amanda Rybarczyk, two of the Greek Week coordinators, were highly impressed with the giving spirit of the Greek community. Jackson said, "Quite a few of the chapters really emptied their wallets to give money to this charity." Rybarczyk added, "It makes ONU's Greek community look

great when we are able to present thousands of dollars to

those less fortunate than we."

S h a r i n g themselves with those who need help teaches students a valuable lesson aboutlife and the power of

teamwork. Many students have found that participating in such events is a great way to work together for a common cause as well as have lots of fun. Students at Ohio Northern are fortunate to have so many opportunities to make a difference in the lives of so many.

"Quite a few of the

emptied their wallets

to give money to this

chapters

charity."

Parked in the McIntosh Circle, the Bloodmobile

awaits the Delta Zeta members who help with the blood drive.

Displaying their Skip-A-Meal efforts, Todd Bullock and Eric Zint present Habit for Humanity president Carina Meyer with a check on behalf of Sigma Pi.

C elebrating the Easter holiday with the help of Kappa Alpha Theta, two area youngsters get a hug from the Easter bunny at the sorority's Egg Hunt.

Gathering at the 24hour Theta Chi Run starting line, fraternity brothers and friends display the event's marker.

Music and fun in the sun

Did you know

Rain had moved Tunes inside to the King Horn **Sports Center** for the past four years. This year was the first time since 1995 that Tunes was acutally held on the tundra.

Amanda Rybarczyk

ne of the most anticipated events of the year took place the sunny weekend of April 24. What was it? Tunes on the Tundra, of course. This exciting weekend was the first, in as many years that current students could remember, to have sunny rain-free skies. Sponsored by Student Senate, Tunes is a day long music and food festival for ONU students.

This year several fun activities were available for students as a break from the

nes the tunora

music. One of the fun events included a dunk tank in which sorority and fraternity presidents, Angela Flinn and other professors could be dunked. The ONU cafeteria was also set up outside for students to enjoy

burgers and many other picnic snacks, including Sno Cones. ONU student Brooke Franks expressed, "Tunes was areally good time this year. The music was good and the great weather allowed everyone to be out and have a good time."

For this Tunes on the Tundra, the stage was set up outside the Religion building for all performers. headliner group was Imani, an all female R & B group. Other bands were chosen to play through the student band competition, Battle of the Bands. These groups included

> Tetting the best J seats in the house, a few brothers of Delta Sigma Phi enjoy the bands up close and personal.

variety of musical inspirations from Christian

music, a step group, Dave Matthews Band covers and original tunes.

Chad Kellog, the drummer from a student band, The Minarets, explained, "I

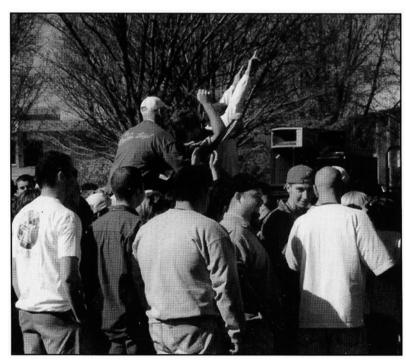

really enjoyed all of the fun Tunes had to offer. The Minarets were glad to have the opportunity to play for several audiences during the day and enjoy our fellow students."

Jenn Grubb,

> spectator to the event said. "Tunes was a great event this vear. There hasn't been sun for it in quite a few years and it was a great change to be able to stay outside

and enjoy the activities all day long. I especially enjoyed the performance by the Minarets; their drummer keeps time like

an hourglass."

"Tunes was a really

have a good time."

Leading the crowd, Norbert Morvan and Scott Griffin fill the air with song.

Entering the food tent, Tara
Stender gets her card scanned so she can get something to eat.

Satisfying their hunger, Trista Cannava, Cindi Slapak and Mary Cameron enjoy corn dogs while they listen to the music of Tunes.

Fighting it out!

Did you know.

The kickboxing club was founded during the 1997-1998 school year and has greatly grown in popularity since then.

Stephanie Jackson

If some students on campus Lare looking more buff and tough, it is probably because they are in the ONU Kickboxing Club. The kickboxers meet a difficult challenge two nights a week as they do an intense physical workout, referred to as "the burns," followed by a series of kickboxing skills. Professor Peter Banfe and his wife, Sherrie, who are skilled in the martial arts, instruct the Kickboxing classes. Professor Banfe leads the co-ed classes, and Sherrie teaches the women's classes.

Professor Banfe had this to say about the club: "Kickboxing here at ONU has

oerience Kickboxino

like spread wildfire. Although both the men and women have been awesome, the women have particularly impressed me with their enthusiasm and warrior spirits. It is no longer appropriate

make a distinction between men and women, women and men "

To show the rest of the campus how tough the kickboxers are, the club sponsored two fight nights for all students to attend. Pairs of kickboxers from the women and men's classes met in the ring for the nights of competition. For the second fight night, ONU kickboxers were challenged by students from the Martial Arts Training Center in Lima. The Lima students surpassed kickboxers in years of training, but the kickboxers prevailed to win every match. Banfe stated, "We won our fights against much more experienced fighters from other schools. The students in the program at ONU have pushed themselves to new

heights physically and mentally and met the challenges of kickboxing with desire courage."

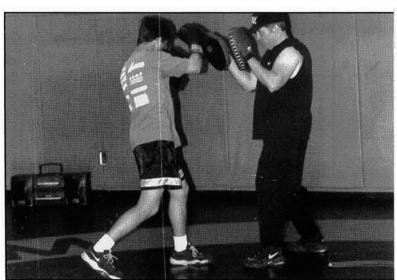

o r a d d e entertainment at the fight nights.

the Kickboxing Club invited the sororities and fraternities to face-off. The last woman standing and winner of the sorority battle was Alison Cullen of Kappa Alpha Theta. Kevin Elick of Delta Sigma Phi was the winner of the "Fraternity Toughman

Competition" after having! completed five nearly impossible feats.

Amanda Rybarczyk, an ONU kickboxer, was pleased with' the attendance at the fight nights. She said, "The sorority and fraternity events. were a good way

to get the rest of the campus involved. They attracted a crowd and raised money for a worthy cause." Admission fees were donated to the Crossroads Crisis Center. which supports abused women and children.

"Kickboxing here at

ONU has spread

For your protection

Did you know

This year, ONU's security force received a new vehicle for their use in patrolling campus. The prior one was black with vellow trim, while the new one is white with red and blue trim.

Bethany Brown

Many students feel safe on the Ohio Northern University campus in the small village of Ada, Ohio and do not worry about safety issues. Melanie Evans, a junior music education major said, "Ialways feel safe on campus." Although our campus is much safer than large public universities in metropolitan areas, the administration and Security department take safety on campus seriously.

With recent building renovations, additional lights have been placed in parking lots and in darker areas of campus. To make sure that everything stays well lit, Security conducts regular maintenance checks looking for everything from

burnt-out bulbs to trees that block the light.

Security officers are on campus 24 hours a day, seven days a week, and 365 days a year - 366 if it's a leap year. They regularly patrol campus by car, bike,

and walking. Every call is responded to, and the officers stress that students need to call if they observe anything unusual. Security also offers an escort service if anyone is nervous walking alone at night.

Residence life is an important part of every student's life, and the student affairs staff helps establish policies and programs that contribute to a safe and secure campus. Education about safety begins with freshman orientation, where students are told to be prudent. Locking doors, walking with another individual at night, and being aware of what is going on around you can all help make you safer.

To remind students that the most important part of safety on any campus is taking common-sense precautions, the

residence life staff conducts a not realize are ergonomic, "zap" program.

"One of the nice

things at Northern is

you don't have to

worry about the

safety issue like you

do at bigger schools."

~Jennifer Roebuck

The staff chooses a night to check residents' doors to see if they are locked. If not, the student receives a note informing them that they were potentially not safe. This program is not

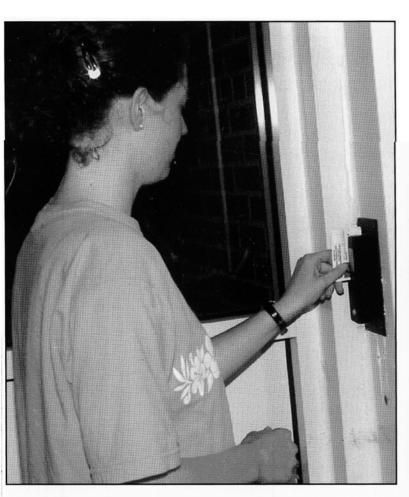

meant to scare students, but to raise their awareness.

Throughout the year, many organizations plan programs to create awareness of safety. The kickboxing club, residence life staff, sororities and fraternities all presented programs to help create of awareness assault. Additionally, the Interfraternity and Panhellenic Councils revised their risk management policies and the Theta Chiís went dry this year, adding to increased safety.

With all the violence reported in the news, it's easy to forget that safety on campus extends past locked doors and feeling secure. However, the ONU Safety Committee considers all aspects of campus safety. Some areas we might considerations for faculty and staff and tracking all "hazardous" chemicals" on campus. The 21 committee' members represent each' area on campus, including students. They

also work with the Security department to make sure all rules and regulations are being followed, that physical problems are quickly corrected, and that the campus feels secure.

ONU, more this year than ever before, has taken an' active role in promoting safety awareness. Hopefully, the trend will continue so students can learn how to protect themselves and increase their safety.' Second year pharmacy major Jennifer Roebuck said. "One of the nice things at Northern is you don't have to worry about the safety issue like you do at' bigger schools." Thankfully, ONU is much safer than many, large schools. And, by keeping their eyes and ears open, students can help make it even safer.

Mary Rinkoski

ometimes all you want is a Dpiece of advice, and other times, you think you will scream if you hear advice from one more person. When we want it and even when we don't, there always seems to be someone with a few words of wisdom or constructive criticism. The best thing we can do is just listen and file the information away. Each person learns his own lessons fighting through life, and passing on these tidbits of information helps others to possibly avoid the same pitfalls. College students know a little bit about a lot of things, and some even know a lot. Asking students what their one piece of advice would be

to upcoming students, or even the worldatlarge, caused brow scratching and serious thinking.

"Don't be afraid to be yourself," said Marika Skarl, "sophomore sociology major. After a few seconds of thought Tina Gregg, sophomore electrical engineering major, said, "Try new things and don't judge a book by its cover." Nick McCarty, Freshman General Studies major, gave a life lesson: "Success isn't always measured by what possessions one has but by the obstacles one overcomesto get there."

Braving the cold, this studentwould advise you to bring lots of warm clothes to make it through the long Ada winter.

Striving for excellence

Did you know...

Approximately
1,000 parents and
family members
attended the
Honors Day
ceremonies. This
is the largest
attendance in the
history of the
event.

Bethany Brown

On Wednesday, May 5, ONU continued its annual Honors Day tradition, recognizing superioracademic achievement. The Honors Council planned this event. Officers included President Ann Donnelly, an English/ education major, Vice President Heather Haynes, a biology/pre-med major, and Secretary Eric Schmidt, a pharmacy major. Dr. Roger Goldberg, Associate Vice President for Academic Affairs, led the Council.

The Honors Day Convocation, the central activity of the day, was held in the King-Horn Convocation Center. Students, parents,

onoring students

"I

faculty and staff attended the After ceremony. academic the processional, Dr. Bruce Burton, keynote speaker, addressed the assembly. Dr. Burton, professor mechanical engineering,

former dean of the College of Engineering, and retiring faculty member, spoke on "Today's Academic Environment Enhances Tomorrow's Opportunities." Donnelley then spoke on behalf of the students being recognized, and Schmidt introduced the honorary organizations, their members and initiates.

The Honors Day luncheon followed in the field house for the honor students and their parents. The undergraduates from each class with the highest GPA were recognized, and Alpha Xi Delta and Phi Delta Chi were recognized for achieving the highest cumulative GPAs for Greek organizations. Stephanie Newman and

Brent Gay received the Dankook Awards. Dr. DeBow

Freed officiated the luncheon for his last time as University President.

Throughout the day the various departments recognized outstanding

scholars and honoraries inductednew members. It was quite a busy day, with events beginning at 8:30 a.m. and not concluding until late that evening.

While most students enjoyed being honored, senior communication arts major **BenjaminMcKibben** said, "I enjoyed inducting the new members." Many of the individual honoraries had induction ceremonies that were shrouded in secrecy, which contributed to the excitement of the day.

Honors Day has flourished under Dr. Freed's administration. Once a halfday event, Dr. Freed changed it to a full day so that those students who have excelled

academically are properly recognized. Additionally, few on campus realize that parents did not participate in Honors Day until Dr. Freed began inviting them in

the early 1980s.

enjoyed

inducting the

new members."

~Ben McKibben

Dr. Goldberg said that the event was "truly a team effort." He noted the work involvedby academic advisors to the various honoraries, the physical plant, food services, academic affairs, and the departments campus-wide. This event was truly a cooperative effort that united the campus in honoring students.

Although the payoff for hard work often comes each quarter when students receive their grades, Honors Day publicly recognizes students' dedication to learning and leadership.

Exemplifying perseverance

Did you know...

In this, President
DeBow Freed's
final time
presiding over the
Law
Commencement
ceremonies,
exactly 100
students
graduated.

Blythe Phillis

For the 1999 law class, education has become a lifestyle. Before entering the Claude W. Pettit College of Law, these individuals were required to complete four years of undergraduate study in any field. On average, each law student spent seven years in college.

During their legal education, these barristers studied required subjects such as torts, property, Constitutional law, and

commencement ceremony

"For

commencement

was a time of joy

and happiness, and

signalled another

chapter completed

in their life."

criminal law. Most students satthrough classes in tax law, evidence, and s e c u r e d transactions. Areas such as intellectual property or b a n k r u p t c y depended on each student's area of interest.

Many of the graduating law students had participated in extracurricular activities such as law review, moot court, or the student bar association. Additionally, many gained practical experience working in the clinical program, which gives students class credit for working in public legal offices.

On May 16,1999,law students were honored by receiving their second diploma, a Juris Doctorate. This was the last year **President DeBow Freed** presided over the ceremonies.

Celebvating with his family, Matthew Nee wonders what the next step will be in his life.

Mr. Gerald E. Boltz gave the formal address. Boltz, an ONU

law alumnus, is an Attorney-at-Law in Santa M o n i c a, California. He spoke of the future as a bright horizon with m a n y opportunities.

Dean Victor L.

Streib presented the students with their doctoral hoods.

However, law commencement was not the end of studying for these students. Before practicing law, they must pass the bar exam in their state. And, so, it was back to the books for June

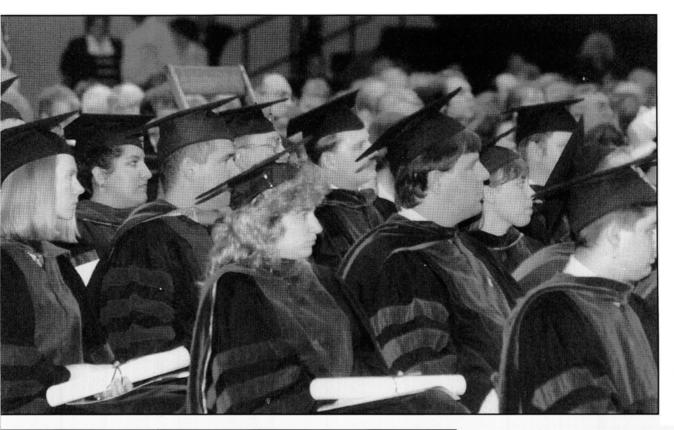

many

and most of July to assure testing success.

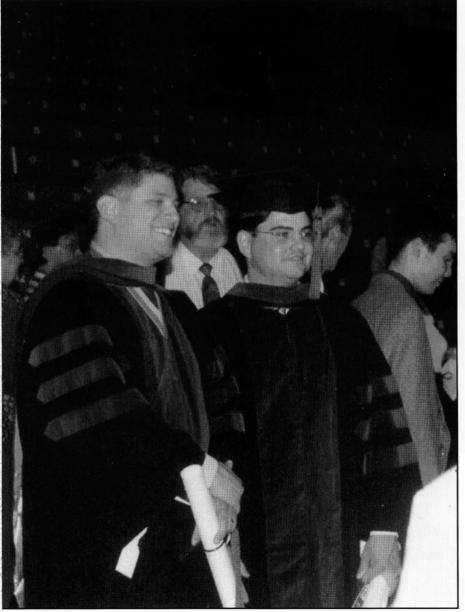

For many commencement was a time of joy and happiness, and signalled another chapter completed in their life. Each

graduate is now ready to face the challenge of being a professional lawyer. While some were sure what the future holds for them, others were unsure. We wish them success on their journey.

Thinking about the future, newly graduated law students intently listen to the message of the formal address.

Say Cheese! Robert
Aplin and
Benjamin Baker take
a moment to record this
event for posterity.

A chieving her goal, Meliss a Wilkinson finds that perseverance does pay off as she receives her degree from President Freed.

Ending another chapter

Did you know...

The final diploma handed out by President

DeBow Freed in his twenty years here at Northern went to Matthew R. Wushinske.

Blythe Phillis

The weekend of May 22-23 held a busy schedule for graduating seniors. Preparation for graduation started on Saturday, May 22, at 1:00 PM with rehearsal. It was followed by a reception at **President and Mrs. DeBow Freed's** home. That evening graduating seniors, their friends and families attended the graduation banquet in McIntosh Center.

Commencement was held on Sunday, May 23. When the gymnasium filled with the graduating seniors, emotions and high spirits floated throughout the room. As graduates walked across the stageto receive their diplomas, ndergraduate commencement

some laughed and some cried. Ending this era of their life and beginning the next era was an achieved goal and a new challenge.

Catherine Crier, a broadcast journalist, gave the address. She spoke of discovering and

exploring the world. She filled the graduates' minds with thoughts of happiness, dreams and goals. Dr. Crier ended the address with, "I don't know what the future holds!" Graduating senior Matthew Heft, a civil engineer, left his fellow classmates with these words of widsom, "Every single one of us has the power to directly impact our family and friends."

On May 23rd, graduating seniors were not the only individuals honored. Recognizing their 20 years of outstanding commitment and service to the University, **Dr. E. Eugene Frazer**, chairman of the Board of Trustees, presented an honorary Doctorate of Fine Arts to **Mrs.** Catherine M. Freed and an

honorary Doctorate in Letters to **Dr. DeBow Freed.**

The College of Arts and S c i e n c e s produced 219 g r a d u a t e s . Stacey Ann Hope, a biology major, was honored by the college for obtaining the

highest grade point average. The College of Engineering had 65 graduates and honored Sheldon Daniel Schlabach,a civil engineering major. The College of Pharmacy congratulated 149 graduates. Two pharmacy graduates were honored, N. Nicole Endejann and Amy Marie Evans. Dean Thomas A. Gossel presented hoods to 23 pharmacy students graduating with a Doctorate in Pharmacy. The College of Business Administration

produced 70 graduates. Lisa Elaine Craig, an accounting

"Every single one

of us has the

power to directly

impact ourfamily

~Matt Heft

and friends."

major, was honored by the B u s i n e s s College for maintaining the highest grade point average, All together 503 s t u d e n t s graduated from the University.

Receptions were held after graduation at the graduates' respective colleges. At the receptions graduates were honored and congratulated by their professors, friends and family. Festivities carried on throughout the evening. The rain and thunderstorms held off until half an hour after the ceremonies. As the sun set on the horizon, the graduates closed their college doors and prepared to start their professional lives.

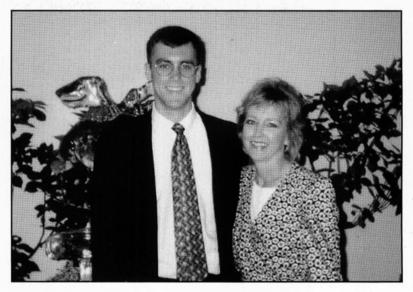

With the celebration in full swing, everyone watches as the College of Pharmacy cheers their accomplishments.

All smiles, Beth Cavallo and Kelley King congratulate each other as they leave the ceremony with their diplomas in hand.

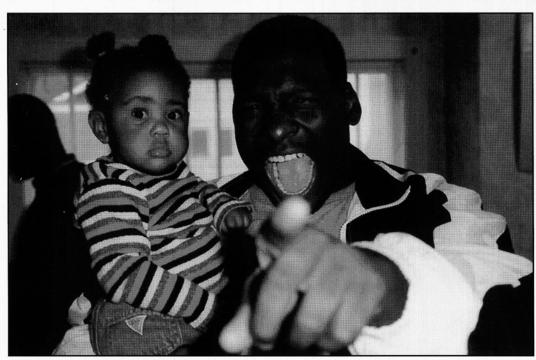

With the towering stack of diplomas in the foreground, Dr. E. Eugene Frazer, Catherine Crier,

President DeBow Freed, Dr. Anne Lippert, Rev. Vernon LaSala, and Matt Heft watch as the procession enters. Standing in front of an ice sculpture, Mike Hoppe enjoys the graduation banquet with his mother. Screaming at the top of his lungs, Leamon Braxton baby-sits Leon Williams' daughter. However, he probably doesn't realize that if

he were to yell for 8 years, 7 months and 6 days, he would have produced enough energy to heat a cup of coffee.

Getting a good workout, Amy Barlak runs in the 5K fun run during homecoming weekend. She probably doesn't know that she can burn

150 calories an hour by banging her head against a wall. However, that would be much more painful than running three miles.

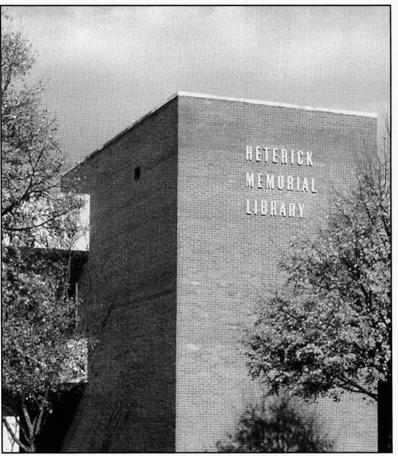

Enjoying a warm spring day, Jami Moore reads a book while taking in the sun beams. She probably doesn't know that the longest nonmedical

word in the English language is "floccinaucinhicipilification." The word means the act of estimating something worthless and contains nine i's.

Battling for supremacy, Stained Glass, a Christian band comprised of ONU students, competes for the right to play at Tunes. Their battle didn't take long and neither did the shortest war in history - it occurred between Zanzibar and England in 1896. Zanzibar gave up after 38 minutes.

Standing peacefully,
Heterick Memorial
Library is a fixture on
the Northern campus.
However, the engineers
who designed Indiana
University's library
forgot about the weight
of the books and it sinks
over an inch each year.

Travelling over the pond and through the woods, Dr. Mike Milks participates in the annual Homecoming 5K fun run.

Taking a break in between classes, Laura Janko enjoys a sunny, fall day.

What's your opinion's

Did you know...

Approximately
450 students
responded to this
year's survey
questions. This
represents about
16% of the total
number of
students.

UTYEY results

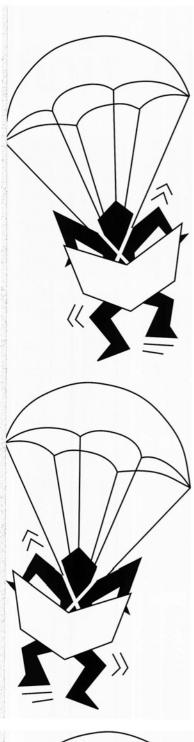

In response to the question "Do you think the Green Monster should be lit?" **Haley Reis**, who believes that it should be lit, commented that this concept would be important "especiallywhen it starts getting dark around 6 PM."

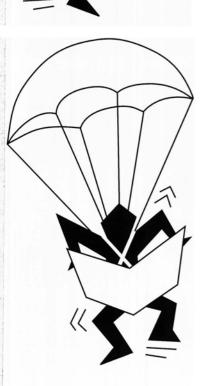

In response to the question "Do you think that computers are positive?" Alison Memmer, who believes that they are positive, related an experience that shows how computers can make things easier: She said, "I ordered a plane ticket over the Internet for my spring break trip. I ampretty excited I was able to do that."

Inresponse to the question "Do you think ONU should build more residence halls?" Toby Hertenstein, who believes that Northern should expand its housing, also believes that they should be different from the current style and instead be "suite style rooms."

In response to the question "Doyou tip the pizza delivery guy?" **Scottie Pope,** who definitely believes that people should tip the delivery guy, commented to further his point by saying, "I also tip the bartender for every purchase! Tipping is a very important aspect σ social life."

In response to the question "Areyou ready to give up CDs for mini disks?" Scott Reinhart, who is not ready for this transitionyet, also commented that he has not even entirely converted exclusively using CDs to play his music. He said, "Ihave vet to even give up cassette tapes."

Multiple Choice Questions 1st 2nd 3rd

1. How many friends do you have on campus? A. 1-5 B. 6-8 C. 9-10 D. 10+

2. How many plays have you attended at ONU?

A. 1-2 B. 3-4 C. 5-6

3. Which mood are you usually in?

A. happy B. sad C. angry D. confused E. other A. 67% E. 29% D. 4%

4. Who is your favorite South Park character?

A. Kenny B. Cartman C. Chef D. Mr. Garrison C. 41% B. 29% D. 12%

5. How often do you call home?

A. 1x/week B. 2x/week C. 1x/month D. hardlyever A. 46% B. 33% C. 12%

6. How many years until you are married?

A. >1 B. >3 C. >5 D. >10 E. never F. now C. 64% B. 18% A. 9%

7. How many years until you have kids?

A. >1 B. >3 C. >5 D. >10 E. never F. now C. 48% D. 28% B. 12%

8. How many years until you have your own home?

A. 1 B. 3 C. 5 D. 10 E. never F. now C. 63% B. 25% D. 12%

9. Are you...

A. single B. married C. divorced D. engaged E. dating E. 50% A. 42% D. 8%

10. Which do you use more...

A. cash B. credit C. check A. 67% B. 25% C. 8%

	Yes/No Questions	Yes	NO

Sitting comfortably amongst their furry friends, members of Alpha Xi Delta ride in the Homecoming parade. They along with Delta Zeta, Kappa

Alpha Theta and Zeta Tau Alpha represent four of the 26 sororities that are members of the National Panhellenic Conference. Enjoying the moment, Zach Boeckman of Delta Sigma Phi walks off the stage after receiving his diploma. Nationally, he is one of the 71% of

men in fraternities who go on to graduate. However, of those men that do not join a fraternity, only 50% of them will go on to graduate.

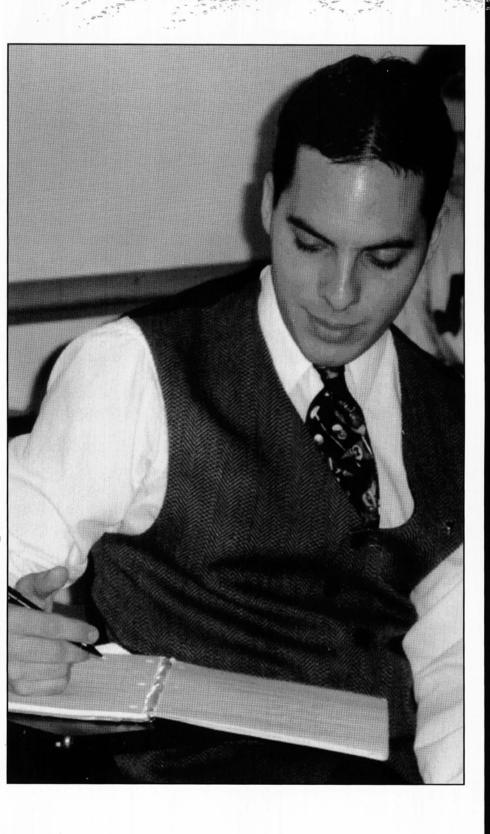

Giving it all they've got, Charlotte
Terlecky, Julie
Rollins, Mindy Riggle
and Linda Duffy
compete in the Delta

Zeta "Turtle Tug." The fact that the tug-of-war was an Olympic sport from 1900 until 1920 is not well known.

A ll spiffed up, Kevin Ault, a member of Phi Delta Chi, hopes that one day all of his studying will help to make him very successful in his career. Interstingly enough, 85% of Fortune 500 chief executives belong to a fraternity.

A walk on the wild side

Did you know...

This year, the highest average GPA for a sorority was held by Alpha Xi Delta while the highest ranking fraternity was Phi Delta Chi.

Stephanie Jackson

The purpose of Greek Week is to unite the Greek community in service and friendship. The theme that incorporated this unity for 1999 was "No Matter the Letter, We're All Greek Together." This Greek Week, like any other, was fun and competitive, but new events and an important philanthropy made it a little different than year's past.

The philanthropy project for Greek Week began six days before the actual week of competition ensued. Greeks came together to raise money for the Pediatric AIDS Foundation and ended up collecting over \$1250.

reek Week

Monday, the first night of competition, included the Greek Sing and Banner Competition. Winners of both events were Zeta Tau Alpha and Phi Delta Chi. Zeus and Aphrodite candidates for all

participating chapters were also announced Monday night. Candidates were asked to dress up like their chapter mascots, and they arrived in everthing from a turtle costumes to a mortar and pestle.

Tuesday night was the ever-popular Dodgeball Tournament. The winners were Kappa Alpha Theta and Sigma Pi. Anthony Boravica was pleased with Sigma Pi's performance. He said, "Dodgeball is our chapter's favorite event. We look forward to it every year."

Wednesday evening was the Social Issues Workshop with a special presentation by **T. J. Sullivan** and **Joel Goldman**. Their show was entitled "Friendship in the Age of AIDS." Sullivan

and Goldman had been traveling across the country

for 7 years presenting their campaign on safe sex and AIDS awareness to numerous c o l l e g e campuses. Their show at ONU marked the finale of their

campaign, and we were very lucky to have them.

Thursday night was Letter Building, a brand new event for ONU Greeks. Each chapter built their letters out of everything from vacuum cleaners to milk crates. Kappa Alpha Theta and Phi Delta Chi were the winners of this event.

Water Games took place on Friday night in the King Horn pool. Chapters competed in relays, ring collections, and the alwayshilarious belly flop. LaVonda Napka of Alpha Xi Delta delighted the crowd with a World Wrestling Federation belly flop presentation. The overall winners for Water

Games were Kappa Alpha Theta and Sigma Pi.

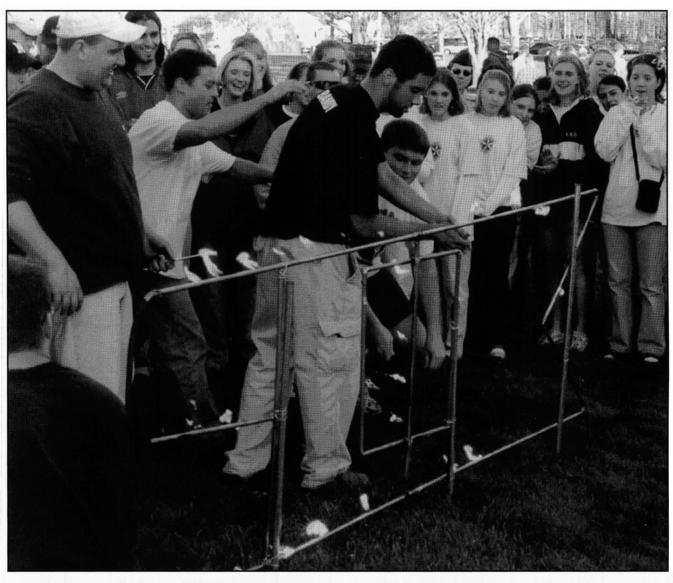

"Dodgeball is our chapter's favorite event. We look forward to it every year."

~Anthony Boravica On Saturaday,
Greek Olympics
were held and

A p h r o d i t e
candidates were
crowned. Dana
Knotts of Kappa
Alpha Theta and
Ross Kurtz of
Delta Sigma Phi

received this honor from a majority vote from the Greek community. Greek Olympics competition lasted throughout the afternoon beginning with a water balloon volleyball contest and ending with the bucket brigade. Greek Olympics winners were Alpha Xi Delta and Sigma Pi.

Greek Week events came to a close on Sunday night with a Greek Awards ceremony. Key note speakers at the ceremony were **Dr. Freed** and **Angela Flinn**. Greek Week winners Kappa Alpha Theta and Phi Delta Chi were named, and the first ever Spirit Award was given to Phi Delta Chi as well.

 $A \equiv \Delta$, ΔZ , $KA\Theta$, ZTA, $\Delta \Sigma \Phi$, $K\Psi$, $\Phi \Delta X$, $\Phi K\Theta$, $\Phi M\Delta$, $\Sigma \Phi E$, $\Sigma \Pi$, ΘX

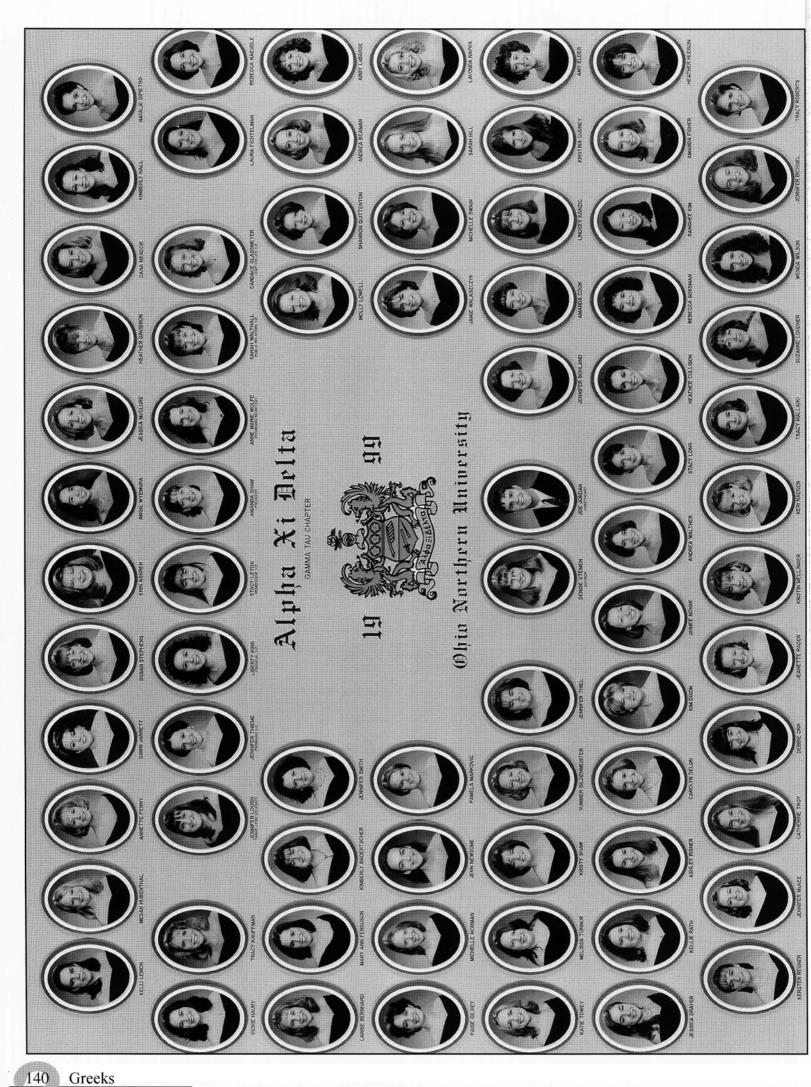

ighting **d** controlled inferno, Jason Bandy of Sigma Phi Epsilon puts a special touch to these Greek letters while his brothers and the members of Kappa Alpha Theta look on.

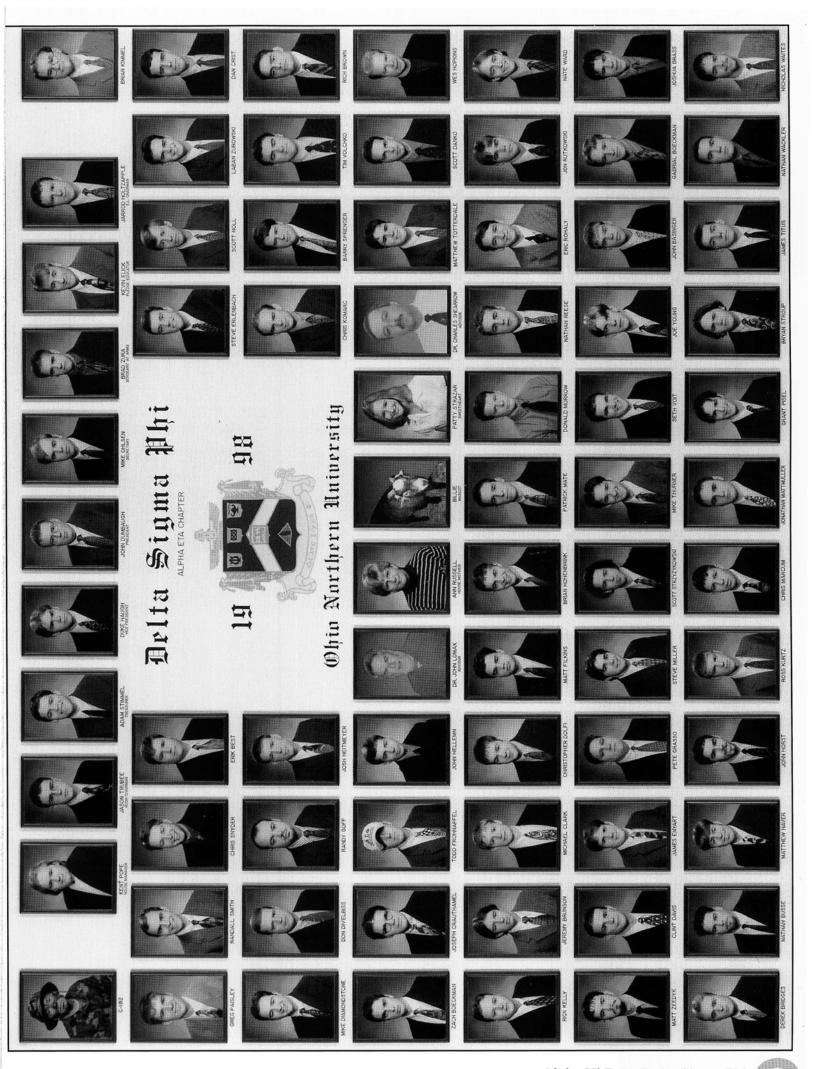

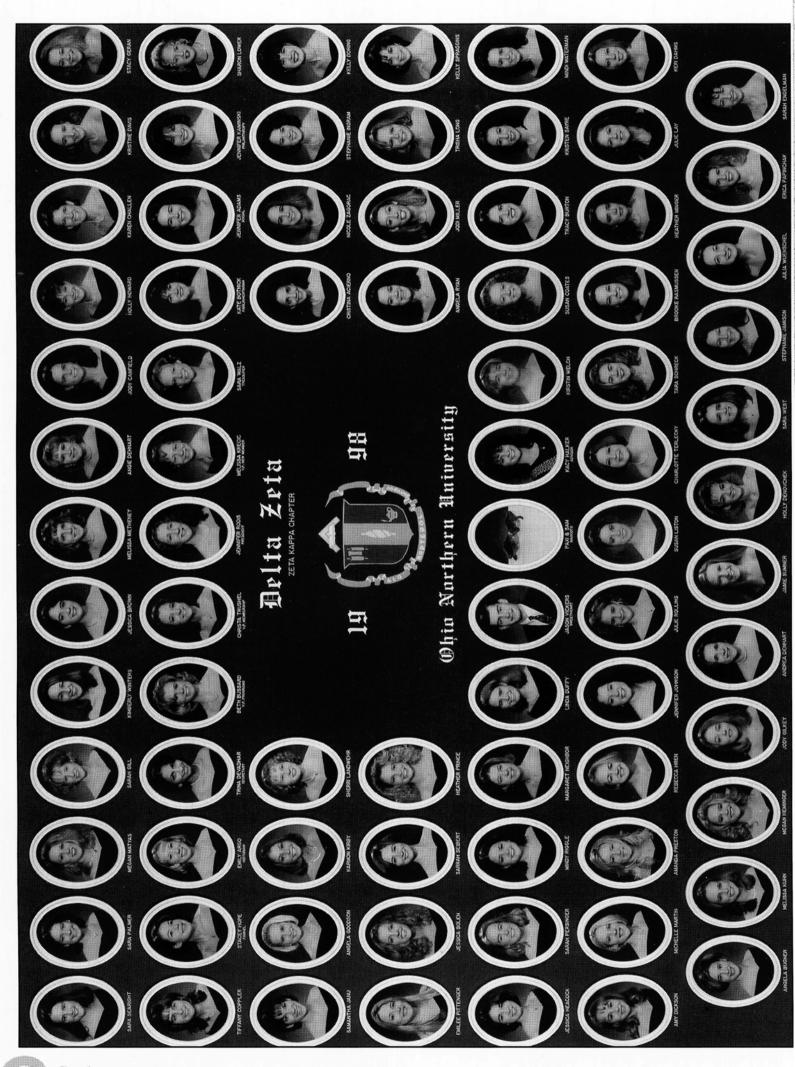

Returning from the pond, Christa Trushel rushes to help the Delta Zeta's fill up their water container.

 $P^{\textit{ulling with all their}}_{\textit{might}, \textit{members of}}$ the Alpha Xi's can smell victory in this tug-of-war.

Putting everything into his serve, Joe Young sends a fast ball over the net; however, his serve probably doesn't stack up to the fastest serve in history.

It occurred in June 1963, when British tennis player Michael Sangster served a ball clocked at 154 miles per hour. Using her hands, Brooke Hoehn successfully blocks a spike. She may know that the game of volleyball was invented in a Holyoke, MA

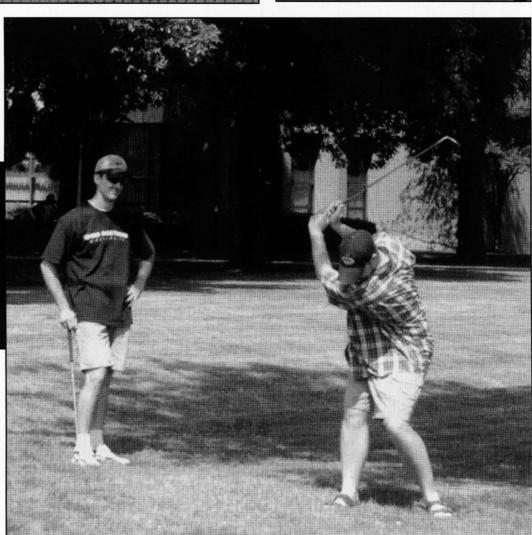

YMCA in 1895. Back then the inventor, William G. Morgan, first called it mintonette, where players hit a basketball over a rope.

In some thick rough, Ryan Stephan shoots for the green as Jacob Stickney looks on. They probably were unaware that the golf ball didn't always

have dimples. In fact, before 1850 golf balls were made of leather and stuffed with feathers.

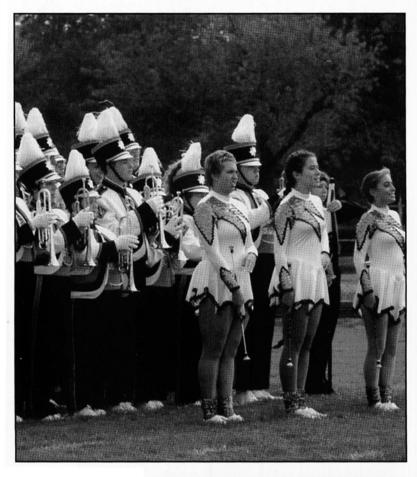

Breaking the huddle, the Polar Bear defense prepares to execute its plan to force a turnover and recover the ball. They probably didn't realize they'd have to find 3,000 cows if they were to supply the NFL with enough leather for a year's supply of footballs.

Plying through the air, Brandon Kelderhouse easily clears a hurdle on his way to victory. He proves the fact that humans can indeed jump, but little does he know that the only mammal that cannot accomplish the feat of jumping is the elephant.

Ready to take the field, "The Star of Northwest Ohio" patiently waits to perform.

Go, Bears, Go!

MUSIC PROGRAM

Carrying an upbeat fune

Mary Rinkoski

Music creates friends, good times and even travel opportunities for the over 500 students who participate in musical groups annually at ONU. The ONU Marching Band headed south in 1997 to march in the Pre-Spectro Magic Parade in Disney World and headed north last fall to march at a Canadian football game.

"The trips are so much fun," said Melissa Ives, junior international business and economics/voice major, "marching at Disney World in front of thousands of people is an experience I will always remember."

The Marching Band

includes a corps style band, a Northern Lights color guard, twirlers, an offfield percussion battery and three field commanders. They perform at all home football games, two away games, and march in the Homecoming Parade and the Ada Harvest and Herb parade in addition to out-of-state travels. "The Star of Northwest Ohio," the Marching Band is only one of the 18 performing ensembles offered at ONU. Dr. Edwin L. Williams, professor or music and chair of the department, and Charles N. Bates, associate professor of music and director of bands lead these musical groups. Students can participate in Pep Band, Symphonic Band, Symphony Orchestra, Wind Ensemble, Jazz Ensemble I,

Ensemble, New Music Ensemble various or Instrumental Ensembles (percussion, brass, woodwind, string, trombone or tubal euphonium). Any student involved in a major music ensemble throughout the year is eligible for Tau Beta Sigma, the National Honorary Sorority for Bandswomen, or Kappa Kappa Psi, the National Honorary Fraternity for Bandsmen. These groups provide service to the band and promote the love of music. The many bands practice and socialize in the newly renovated Presser Hall. This building was named in honor Theodore Presser, the first chairman of the music department and later an important figure in the music publishing industry.

Undergoing renovations in 1985 and again in 1997, Presser Hall now boasts 20 practice rooms, 14 faculty studio offices, two classrooms, a rehearsal/dance studio, an electronic piano lab, an electronic composition lab and a computer lab in addition to the Snyder Recital Hall and Foley Rehearsal Hall.

Libby Fleischer, a

Jazz sophomore accounting major, plays viola in the ONU Symphony Orchestra, an ensemble which includes professional players from Lima, Toledo and other surrounding areas.

> "Ienjoy playing higher quality music with good musicians," Fleischer said.

> "The level of playing is much higher than in high school and I enjoy being part of such an outstanding group."

Melissa Ives

"The trips are so much fun...marching at Disney World in front of thousands of people is an experience I will always remember."

Did you know...

Next year, the ONU marching band will celebrate 110 years of performing since its conception back in 1890, 19 years after the University was founded.

Performing for the crowd, Jamie Heinecke shows her skill as she masterfully twirls her baton.

Stopped in their tracks, the Polar Bear defense finds strength in numbers.

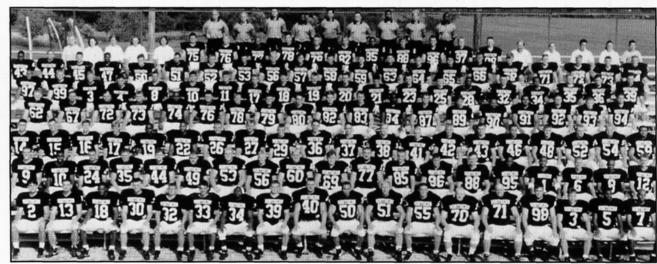

Did you know...

The most points ever posted by the Polar Bears was 151 against the College of Physicians and Surgeons in 1904. However, the most points ever allowed totaled 89 against the University of Notre Dame in 1913.

FOOTBALL

First and ten

Beth Mittelmeier

The football team enjoyed a winning season as the Polar Bears finished 6-3 overall and 5-3 in the OAC. "Playing in the toughest, Division III league in the nation, we pulled together as a team and had a good season," said senior **Joe Zarlinga.** He added, "We can contribute our

success to good team champion all it could handle, chemistry." but the Polar Bears came up

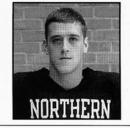

The season began with two crushing wins over Madison College, 63-0, and Heidelberg, 49-7. With the win over Heidelberg, the Bears broke the school record of consecutive road victories. Next on the schedule was topranked Mount Union. Twelfth ranked Ohio Northern gave the two-time defending national

but the Polar Bears came up short as they fell to Mount Union 42-37. The team pulled together to win the next game against Marietta before a disappointing loss to Baldwin Wallace on a last second field goal. However, Ohio Northern was back on track with three consecutive wins against Muskingum, Hiram and Otterbein. The next match-up was against John Carroll. After a valiant comeback, the Polar Bears still fell to the Blue Streaks 28-21. A notable achievement, Steve Vagedes became the first player in ONU history to break the 1000-yard mark for a season which added a positive note to the game against John Carroll.

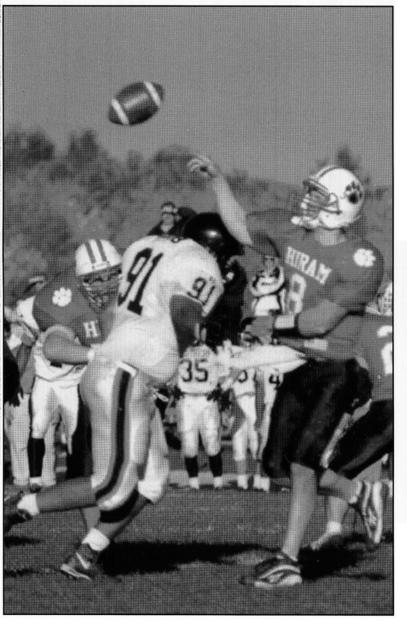

The Polar Bears' season ended with a victory

over Capital, in which the team set or tied 33 records including 36 first downs and 630 yards of total offense. "It was an exciting season and the team had alot of high expectations." said senior **Andy Wolpert.** "This year was a success and a great building block for the future."

"Breaking 1000 yards was an important achievement for me."

Barely missing the sack, Toneli Webb was seconds away from tackling the Hiram quarterback.

Faron Andes gains yardage for the Polar Bears.

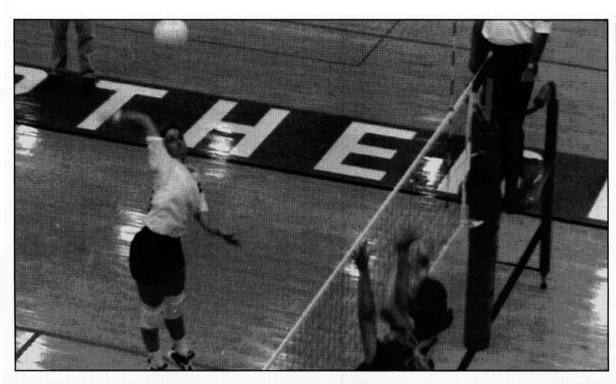

Putting the ball away, Clare Forster goes up strong for the kill.

Walisa Dentinger completes another great pass.

Did you know...

The lady bears own a 20-16 record in the NCAA tournament and have made 16 appearances in the tournament in 18 years of existence.

CROSS COUNTRY

Taking the scenic route

Amanda Rybarczyk

The men and women Polar ■ Bears of the Cross Country team took pride in completing a successful 1998 'season.Both teams had many runners who captured individual accolades as well as helped to achieve an outstanding season.

The women's team had much to celebrate this year as they posted the ONU record for the best cross country

season with 59 wins and 4 losses. The team combined for many achievements this year, winning the Ohio Athletic Conference, OAC, meet for the first time in ONU history and placing 4th at the NCAA Division III Regional Meet, a school record.

The men's team finished the season with a 15-16 overall record and a 6th place OAC finish. Junior Dan Hemmelgarn, who qualified for the NCAA Division III Regional Meet, was named

team Most Valuable Player. "As for this year, we set out to do several things as a team. Even though we didn't achieve all of them, we still had a successful season. The future is are looking promising for the men's harriers," said Hemmelgarn.

Junior Mandy Miller, the only ONU runner to qualify for the NCAA Division III National Meet, posted an outstanding 65th place finish. Miller, along with freshman Elizabeth Stierwalt, was named to the All-Regional team. Joining them on the All-Conference team was senior April Petrus. "We had an awesome season. Because of the closeness of our team, we all worked together towards our goal," said senior Helen Coleman, as she summed up her senior season and crosscountry career.

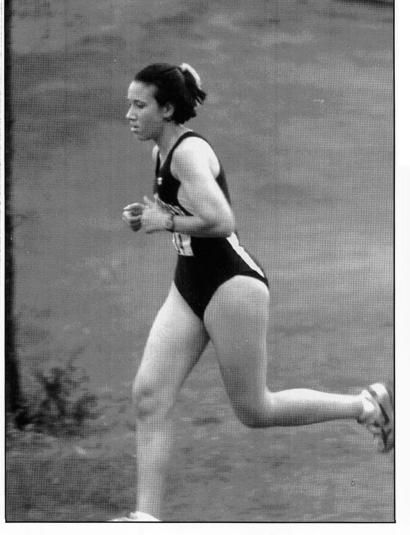

Both the men's and women's teams were led by head coach Brian Cole. Coach Cole led the teams to their success and continued tradition of cross country excellence as he was named OAC Women's Cross Country Coach of the Year.

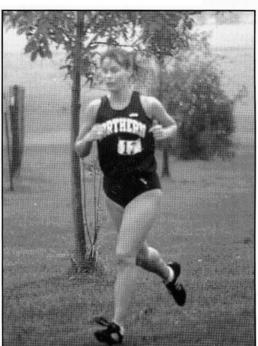

April Petrus

"I gave each member of the team afour-leaf clover with the saying "Witha little luck and a lot of determination, we will make the impossible possible," and we did just that."

-April Petrus

eading the way, Kelli Wise continues to give her best effort as she makes her way through the course.

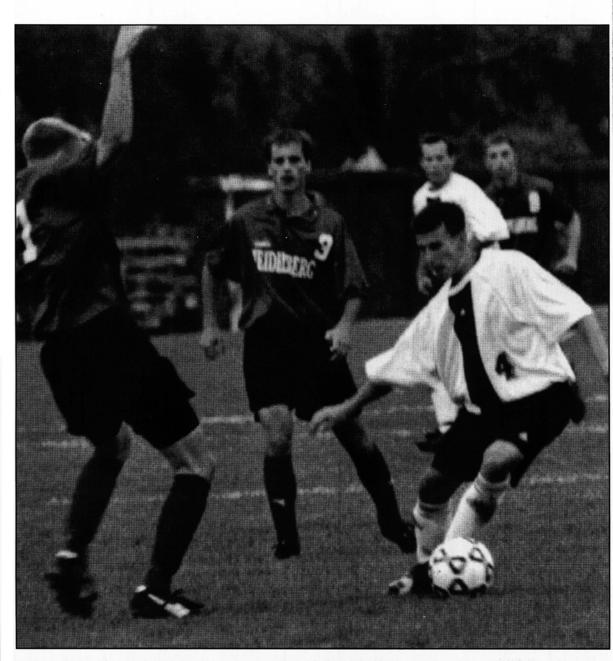

n her own little world. Cara Hamann paces herself toward the finish line.

You don't scare me, pal! Jeff Murphy skillfully dribbles the ball out of harm's way.

Did you know...

Through the 1998 campaign, the Polar Bears have outscored their opponents 272-229 in conference play since the OAC began sponsoring the sport in 1977.

MEN'S BASKETBALL

A Slam Dunk Season

Amanda Rybarczyk

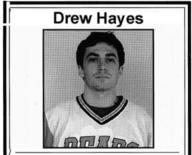

ONU Men's Basketball team enjoyed successful season. accomplishing many of the goals they set for themselves. Starting off the season with a first place finish in the Centre College Christmas Tournament, the Polar Bears used that victory to set the tone for their season. The team finished the season with an impressive record of 24 wins and 4 losses.

Contributing to the successful season, the Bears had outstanding senior leadership from captains Drew Haves and Kevin Sensabaugh. The Bears had 5 players named to the All-OAC Team and 3 players named OAC All-American. Two players, Sensabaugh and junior Jeremy Thompson, surpassed their 1,000th career point tally this season.

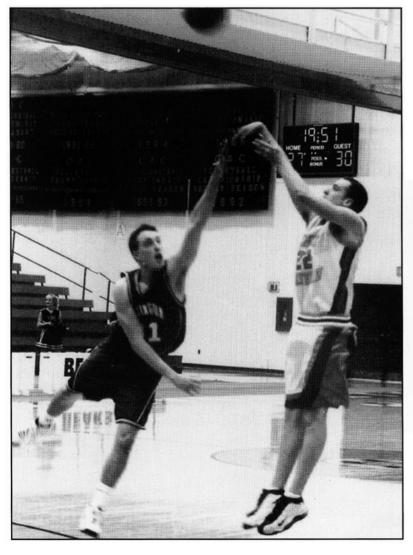

Sensabaugh, a senior, noted that the season "was a great way to end a career. The team was able to accomplish so much and work together to build a winning season." The Bears' success led to many more accomplishments this season. The team won the OAC Conference. the OAC Conference tournament, and played in the NCAA Division III tournament. appearance in the NCAA Div. III tournament marked ONU Men's basketball's 5th trip in 7 years competing on the highest level. The team's record of 24-4 was the Bears' 2nd best winning percentage in ONU school history.

Receiving a few personal awards, Sensabaugh was awarded the Gregory Award. This is given to an outstanding player in the Ohio Conference. Athletic Sensabaugh was also named 2nd team All-American, Head Coach Joe Campoli noted,

"We had an outstanding season. The team represented ONU well. We did an outstanding job in the classroom and on the court. The team was picked to win the conference and did, which was a difficult task. I'm real proud of these kids."

"We accomplished everything we set out to do at the beginning of the season by winning the OAC, the OAC Tournament, and making the NCAA Tournament. Not only did we accomplish our goals, but we had a blast doing it."

WOMEN'S BASKETBALL

Hooping it

Carrie Hayes

he ONU Women's Basketball team had many difficulties to overcome this year. They lost a team leader early in the season when Erin Falk was injured after

only six games. They faced a schedule full of tough conference contests. And, of course, they had to contend with the 14 inches of snow that blanketed Ada for the latter half of their season. However, the Lady Bears persevered, against injury and level three

snow emergencies alike, to post several key victories and advance to the quarterfinals of the OAC tournament.

The team finished the season with a 10-15 overall record and a 7-11 conference record. Coach Kim Chandler said, "[Our players] bring a wide range of talents and strengths to our perimeter game that gives our opponents quite a bit to prepare for." This was quite evident throughout the season.

After Falk was injured, many players helped to fill the void. "We had several people step up at different times in the season," said freshman Angie Zinser. "SheraWolf and Lisa Schommer were great team leaders, and so was Susan Cinadr, our senior player." Notably, Wolfbroke the ONU school record for three-point

goals in a conference victory against Marietta.

The team pulled together to finish the season with an impressive 6-2 run. Zinser commented, "We all had a lot of fun on and off the courtthere were a lot of different personalities, and we all got along."

"Weall had a lot of fun on and off the courtthere were a lot of different personalities) and we all got along."

romjust inside the arc, Jen Magers sends a jump shot just over the outreached arms of her defender.

Tt's game time! The lady Polar Bears listen to the motivating words of their coach, Kim Chandler.

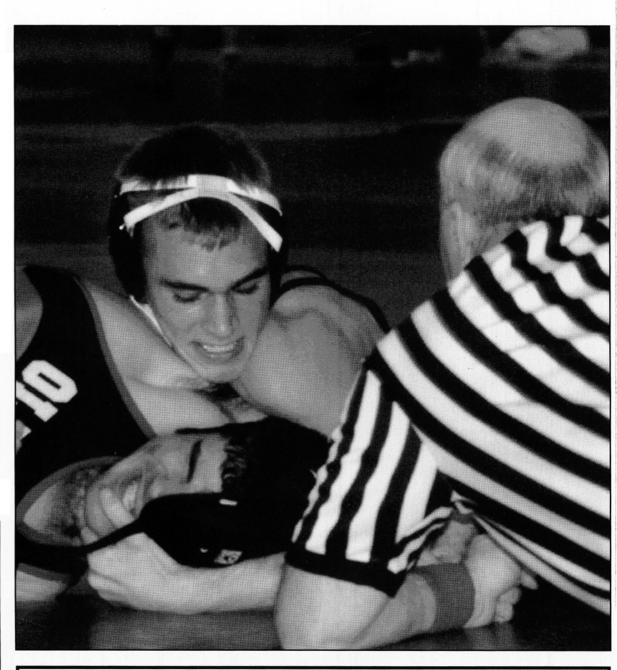

Punishing his opponent, Nate Lee has the upper hand in this match.

WRESTING

Make way for the grapplers!

Stephanie Jackson

The Wrestling team had a successful season on and off the mats for 1998-99. The team attended several invitational meets and hosted one as well.

Wrestlers attended the Midwest Classic at the University of Indianapolis despite extremely poor weather conditions. Three wrestlers placed in the meet.

Freshman Jeremy Dusina took fourth in the 165-pound weight class, Paul Grigsby placed fourth in the 197-pound class and Dave Charles finished eighth in the 174-pound class. The entire team also attended the Wheaton Invitational where they placed 14th.

The Wrestling team hosted the ONU Invitational Wrestling Tournament where they finished seventh. Gary Sass had an impressive

dominance in the 157-pound weight class winning all of his matches.

The team also received academic honors. The NCAA Division III National Coaches' Wrestling Association presented the team with a Scholar All-American Award. The award is presented to five teams across the nation whose starters hold the highest overall grade point average. Of the 107 teams in Division III, ONU's wrestlers achieved the third highest GPA.

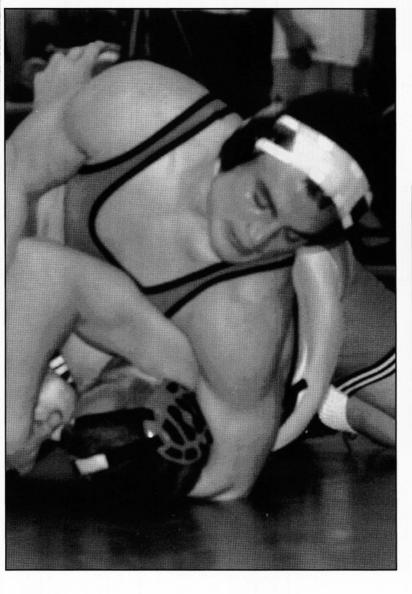

Head coach Ron Beaschler was honored this season as well. He was named president-elect of the Division III National Wrestling Coaches' Association. His fine leadership motivated the ONU Wrestling team to be tough and smart -- a winning combination.

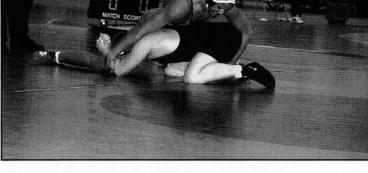

Beaschler had this to say about the Polar Bears' season, "We were a very young team this year and have gained a lot of valuable experience to build on for the future."

Ron Beaschler

"We were a very young team this year and have gained a lot of valuable experience to build on for the future."

Getting the pin, Ben Gammie shows his strength as he holds down his opponent.

Taking control of the match early, Hussain Abdul-Zahir sets up his opponent for defeat.

Leaping off the starting platform,
Brian Robinson goes airborne before entering the temporarily placid waters of the pool.

Come on in, the water's fine!

Jenn Grubb

he ONU Swim Team went into the 98-99 season on a very positive note. Along with many returning letter-winners was a strong freshman class. Freshman Allison Snyder has his to say about joining the eam, "When I came here I was nervous to join the team, but after a while I found out now fun it was, and I was ready for a great freshman season."

The women's team ended their season with an overall record of 8-8 and a dual meet record of 3-4. The men's team ended their Successful season with an 11-5 record overall and a 5-2 record in dual meets. After a long season of hard work, the team competed at the OAC Championship meet. Both the men and women's teams placed fourth. The lone OAC Champion for the Bears was Kristin Sachain the 200 meter backstroke. The team also had many other swimmers who finished in the top six.

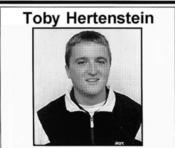

The team was once again led by head coach Volker "Rock" Snow, who is in his fifth year coaching at ONU, and assisted by Bud Harbison, Rick Chaney and Ken Lewis. The captains for this year's team were Jenn Grubb, Stacy Wittkugle, Laura Blue, Toby Hertenstein, and Ryan Aspey.

row, Senior Toby Hertenstein represented ONU at the National Swimming and Diving Championships. This vear Hertenstein placed 14th in one-meter competition, and 18th in three-meter competition. He was honored by being an All-American selection for the second year in a row. When asked about his experience, Hertenstein said, "Nationals was great. It is kind of like life-the more experience you have at it, the easier it is to keep your composure and handle the pressure that comes at that level."

At the banquet, the team was honored for their hard work, dedication and success. The year's Most Valuable Members were Blue and Hertenstein. The swimmers chosen for Most were Dave **Improved** Hartzell, Dave Carson and The team also Sacha.

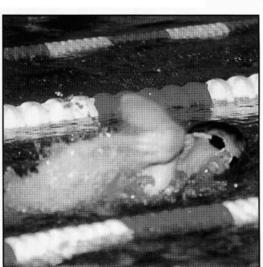

For the third year in a presented plaques to **Dr. and** Mrs. Freed and Gale Daugherty to thank them for their support and wish them the best of luck in their retirement.

> Snyder had this final comment on the season, "I am very proud to say I am a member of the ONU Swim Team. Our future looks very bright as a team, and I am looking forward to the next season!"

"Theteam we took to OAC's was one of the hardest working and most deserving teamsI have ever been apart of. It was the perfect way to end my swimming career."

composed, Ali Rockhold approaches the turn with perfect

Racing to the wall,

Jon Roeger knifes through the water ahead of the pack.

INDOOR TRACK

Hosting the National Meet

Stephanie Jackson

The Mens and Women's Indoor Track teams had a victorious and exciting year. It seems that a season cannot go by without indoor track athletes making and breaking records and 1998-99 was no exception.

Jess McClure, a wellrecord-breaker. known

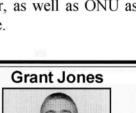

obliterated her own school record during the season with apole vault of 7'1/2". Another notable athlete, Grant Jones, holds the ONU Sports Center record for the high jump at seven feet.

Jones, along with two athletes from the Women's team, competed at the NCAA Division III Indoor Track and Field Championships hosted by ONU this year. Jones qualified provisionally early in the season with a jump of 6'9". Mandy Miller and Tamika Washington also qualified early in the 5000meter run and 55-meter dash, respectively. Washington was proud to compete in her third National Championship. She said, "It's great to see all of my hard work pay off by qualifying for Nationals. I get kind of nervous, but the competition is worth it."

Jones also enjoyed the NCAA competition. He said, "Nationals is the best of the best. It makes you push yourself harder to do better because you have some tough competition. With the National meet being at ONU this year, we had a nice homefield advantage."

The Indoor Track Championship lasted three

days and was a big event for ONU. Students, faculty and staff from across the campus volunteered to help with the meet, selling T-shirts. checking passes, and providing food. The event was successful for Jones, Washington and Miller, as well as ONU as a whole.

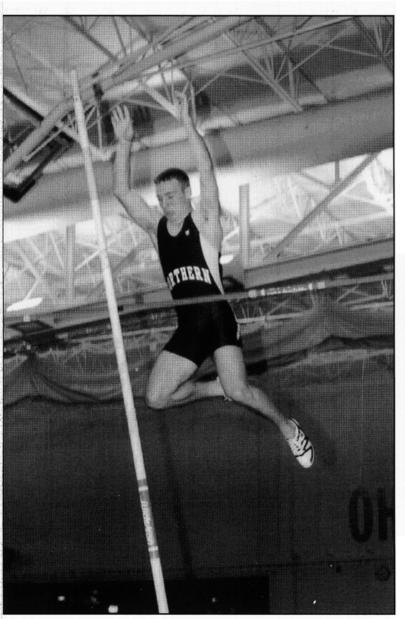

"Nationals is the best of the best. It makes you push yourself harder to do better because you have some tough competition. With the National meet being at ONU this year, we had a nice home-field advantage."

n his way down, Kevin Sabol barely avoids disaster by making sure he doesn't hit the bar.

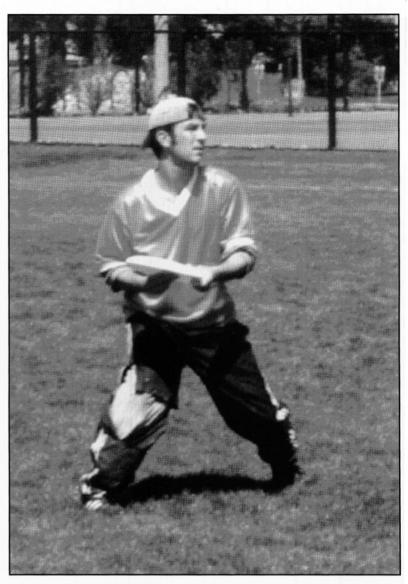

aiking a smooth transition, Ryan Wagner gives the baton to Darren Hart.

Preparing for play to continue, Northern's rugby team gets ready to launch its offensive attack.

A nalyzing the situation, Chad Hutton waits for one of his teammates to break away from their defender.

Threading the needle, Steve Basinger barely gets his throw to teammate Eric Schmidt past a diving defender

CLUB SPORTS

Gaining respect and popularity

Stephanie Jackson

iving it their all and J having fun at the same ime, ONU's Club Sports eams enjoyed successful seasons. Club Sports teams nclude Ultimate Frisbee, Men's Volleyball and Rugby. ONU Club Sports are a mixture of varsity competition and ntramural fun. The teams raveljust as ONU's varsity eams do, and sometimes go even farther.

The Ultimate Frisbee

team traveled to weekend tournaments at Toledo, Ohio State and even Champagne, Illinois. In Illinois they played against much larger schools including Notre Dame. Darren Drew noted the difference between Club Sports and varsity athletics. He said, "I've played varsity soccer for four years and I'm used to competing against Ohio's Division III schools. The trip to Illinois was a different kind of challenge."

ONU's Men's Volleyball players enjoyed their travels and competition as well. Stuart Beatty said, "I have a great time playing volleyball both at home and We traveled to away. Maryland for a weekend and had a lot of fun." Brian Churchwell added. "Our home games are great, too. I hope that in the next few years more people will come to see us."

Adam Anderson, captain of the Men's Rugby team, commented on his favorite Club Sport. He said, "Rugby is a sport all its own. We are more than just a team because there is a lot of unity and fun on and off the field. I love the atmosphere at a Rugby match. It's a tough sport to play. Aggressiveness is the key."

Stuart Beatty

"I have a great time playing volleyball bothat home and away. traveled to Maryland for a weekend and had a lot offun."

Did you know...

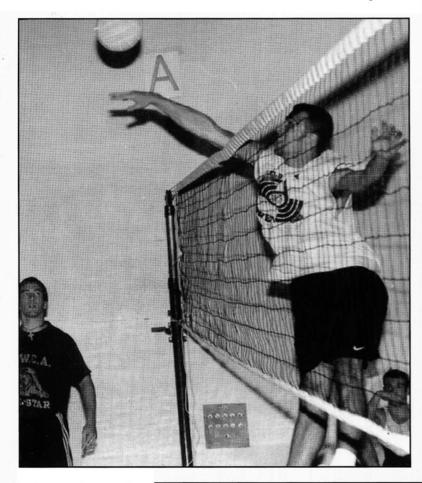

After being founded in 1994, ONU Ultimate made its first trip to the sectional tournament this year and qualified for the regional tournament, placing the team among the top 16 teams in a six state region.

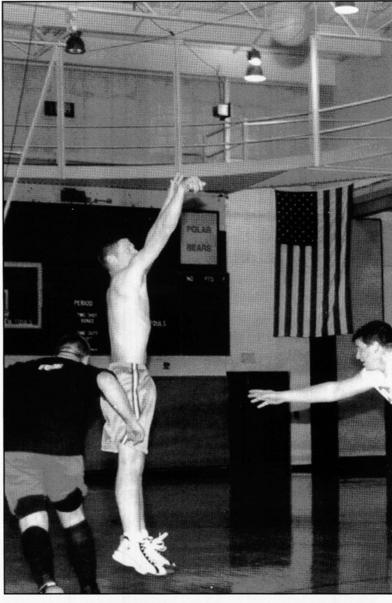

Protecting the ball,
Tracy Jolly scampers down the field as her teammates hurry to lend a hand.

Putting it high above the net, Graham Roach shows his leaping ability while Travis Montgomery watches the ball sail over his head.

Sealing the victory, N i c k
Hershberger sends a three point bomb toward the hoop.

Recording the putout, Brian Eastlick calmly sends the ball back to the pitcher.

INTRAMURALS

A liffle friendly competition

Stephanie Jackson

Northern's Intramurals teams are growing every year. Students all across campus enjoy Intramural Flashball, Football, Basketball, Soccer, Softball, Volleyball, Ultimate Frisbee and Roller Hockey where they compete against other ONU students for the championship. Teams representing

fraternities, chapel groups, residence halls- and other campus organizations sometimes played two or three games a week during their intramural seasons. Just as in any varsity sport, players put in a lot of time and effort.

Bob Farrell, a roller hockey player on Sigma Pi's team enjoyed his senior year of intramurals. He said, "We've always had a roller hockey team entered in the tournament, and I've had fun playing these past three years." Farrell's comments were echoed by players on other intramural teams as well.

Justin Hinderer, a flashball player, summed up the intramurals experience: "I think that intramurals are great because we kind of run our own show. There is structure to the program, but the players are basically in charge." Hinderer added, "It's also fun

to play against ONU students. It's competitive, but enjoyable."

Justin Hinderer

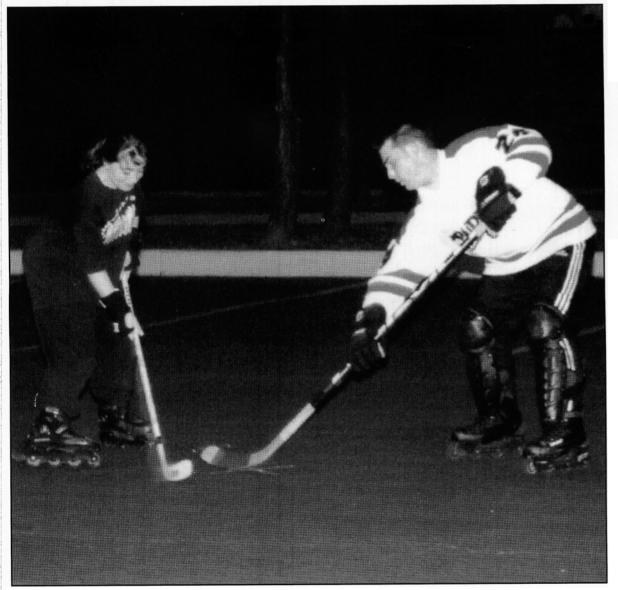

"I think that intrarnurals are great because we kind of run our own show. There is structure to the program, but the players are basically in charge."

Each of the teams that win an ONU intramural championship receive Y-shirts as their prize.

These shirts read "Intramural Champs' across the front."

M aintaining possession, Chris Degenkolb stickhandles the ball while Michelle Heil attempts to knock it away.

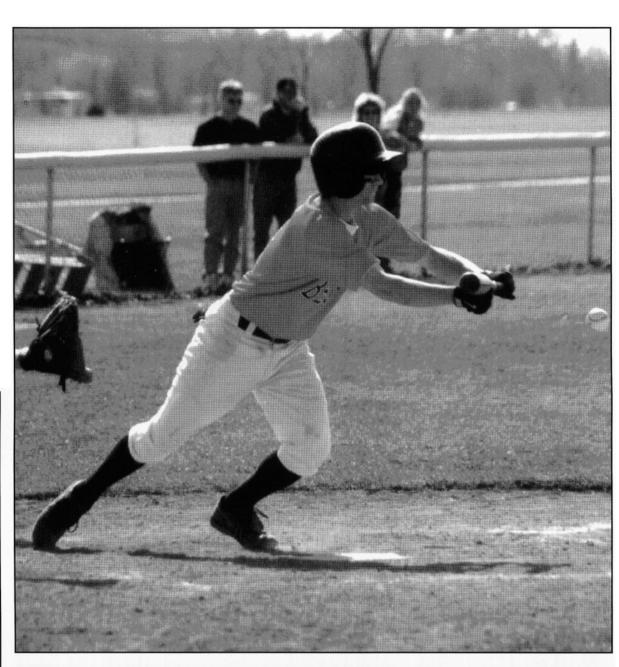

Laying down a perfect bunt, Chad Ebling uses his speed to get on base.

Did you know...

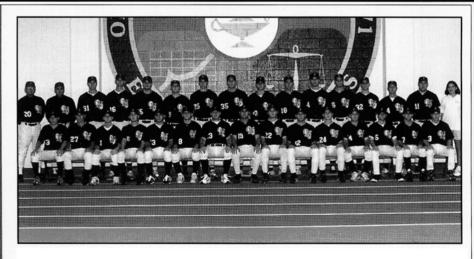

The Polar Bears have been the OAC Conference champions six times. One of those times, in 1974, they made an appearance in the NCAA Division III College World Series.

inishing the season with a record of 25-19, the Polar Bears' baseball team proved to be contenders in the Ohio Athletic Conference. They began their season on Spring Break as they traveled to Ft. Myers, Florida, winning their

winning trend for the rest of the spring. They finished third at the OAC Baseball Tournament to close the season. Coach Herb Straver was pleased with the Polar Bears' performance. He said. "We had great senior leadership this season. The whole team was a pleasure to

first game and continuing a coach and be around. I looked (100). Bush also set records forward to every game."

> Several players received individual honors. Junior Jared Briscoe was named First Team All-OAC. Seniors Scott Crates and Roy Henson and sophomores Scott Bush and Jeremy Hoyt were Second Team All-OAC picks. Sophomores John Bell, Bill Narducci and Bush were named to the All-Tournament Team as well. Additionally, Henson, third baseman and civil engineering major received First Team AcademicAll-OAC honors.

> Crates set school records for the Polar Bears this season with 19home runs and 59 RBIs. He ended his baseball career at ONU ranked fourth on the school's all-time career home run list (24) and sixth on the all-time career RBI list

for the season with 17 doubles and 64 base hits.

Strayer commented on the accomplishments of his players, saying, "These men prepared themselves for life by being successful on the field and in the classroom. I enjoyed working with all of them."

John Carder

"Ourreturnerswere great leaders for the team. I think that everyone learned something about success from them. We have a lot to live up to."

S ending it plateward, Clint Steigerwalt fires a fastballby the opposing hitter.

S howing their intensity, the Polar Bears' bench watches their offense at work.

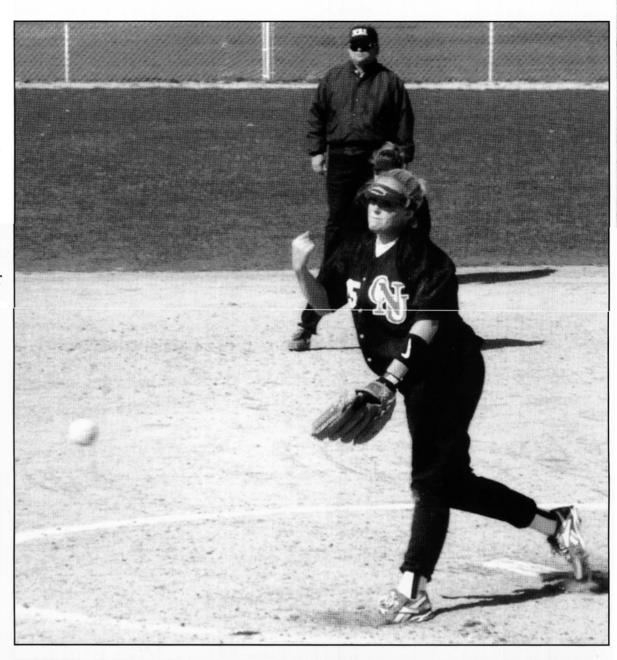

I ntimidating opposing batters, Melanie Olwin fires a pitch to the plate.

Swinging for the fences

Amanda Rybarczyk

he Women's Softball I team experienced a difficult season this year, posting a record of 14-21 overall, and a 7-11 Ohio Athletic Conference (OAG) record, but still had many accomplishments to celebrate. Starting off the season in Fort Myers, FL with a series of games that were used as training for the season, the team enjoyed the practice and the support from their families. This opportunity for the team to work out and play together before the start of the season allowed the team to become closer and was an overall good experience.

The Bears hosted the ONU invitational this season and posted a third place finish. They defeated nationally ranked Hope College twice during this tournament. In regular season play, the Bears swept Capital, a noteable feat for the team. Commenting on the Lady Bears' season, senior Anita Trepanier expressed, "The team really played together and worked hard this season. We had some set backs. but overall we played hard every game and gave our best effort."

leadership by the four senior captains led the team through its season, contributing to the overall morale of the team. Senior captain Jen Wood said, "The team learned to play well work together. and Throughout the season we had a lot of support from our families, especially in Florida." While the team awards did not come this season for the Lady Polar Bears, several members of the team were honored with individual awards. Senior pitcher Melanie Olwin was named to the the First Team All-OAC and junior Megan Tangeman was named to the Second Team All-OAC. Junior Lindsav Nicholson was given an honorable mention to the Academic All-OAC Team.

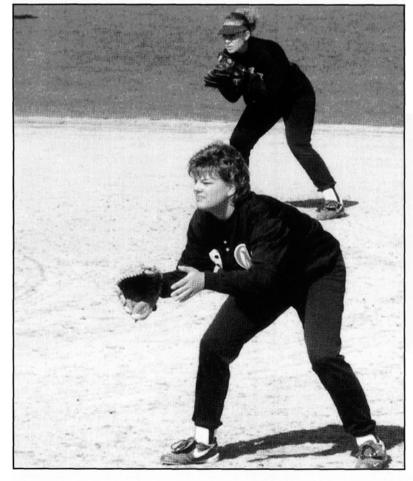

Olwin provided a great

motivation for the team this year as she set four ONU school records. She set records for having the most strikeouts in her career (250), most strikeouts in a single season (99), most innings pitched in a season, and most complete games in a season (19).

Melanie Olwin

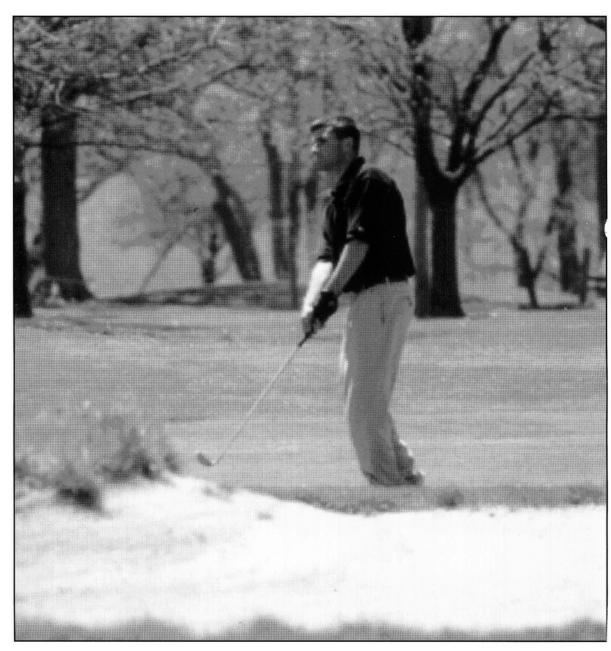

"Taking the spring trip to Florida really helped the team come together and improved team unity. The trip allowed us to work together and we carried that throughout the season to havefun.'

en's Golf is making **I** quite a name for itself at ONU through outstanding leadership of the seasoned players and the overall teamwork and unity of everyone involved. The team placed in several invitational

successful in many matches.

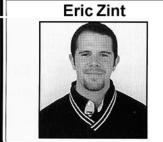

Traveling to the Heidelberg Invitational, the Men's Golf team placed fifth with the great play by Matt Eley, Eric Zint and Craig **Swallow.** Swallow ended the match with a 77 and Eley and Zint both shot 79. The men's team also placed tenth at the

Otterbein Spring Classic.

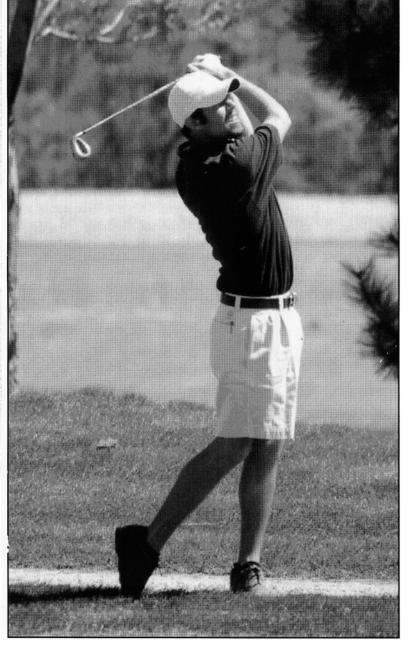

Zint, a third year pharmacy major and the team's captain, also received special recognition for the season. He led ONU's Men's Golf team with an 81.14 stroke average. He, along with senior Rob Riley, was named to the Academic All-OAC At-Large Team. Zint was a First Team pick and Riley was an honorable mention selection. Riley was third on ONU's team with an average of 83.33.

Zint was happy with the team's overall performance for the season. He commented on the sport itself, "I am just glad that we have a good team and that I can get out and play golf as much as possible. It's a great sport."

John Weatherwax, a freshman golfer, benefited from the leadership of Zint and the other team veterans. He said, "I learned a lot about college golf this season. We played individually, but we also played as a team."

MEN'S TENNIS

Charging toward the net

Amanda Rybarczyk

The ONU Men's Tennis L team completed successful season, winning both on and off the court. Seeing each other through the loss of Head Coach Mark Lenssen and dedicating their season to him and the way he wanted them to play, the team grew closer and came to draw

member of the team. They accomplished the goals they set at the beginning of the season despite the great loss. SeniorBrent Gaynoted, "The team dedicated the season the Coach Lenssen. We tried to go out and have fun, while being competitive. Everyone went out with him in mind and gave their best effort."

The Bears completed

on the support given by each the season capturing the OAC regular season title with a record of 9-0 in conference play. This title was due to the well-rounded effort by all members of the team. Led by the strong play of the team's seniors, the men's team was able to finish the OAC Tournament in second place.

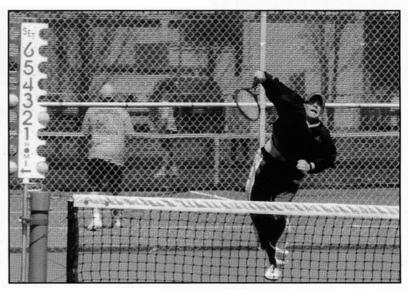

> Several players were honored this season, by both the OAC and the men's team. Gay was chosen by the team as their Most Valuable Player. P-4 Greg Myers was honored with the Lenssen Award, again chosen by the team. The OAC named senior Jason Roush the 1999 Mark Lenssen OAC Men's Tennis Most Outstanding Player, an award chosen by conference coaches.

Summing up the

season, senior Joe Richards commented,"Theunity we had as a team brought us together and allowed us to enjoy each other's company, become part of a fun and challenging team, and always give 100%."

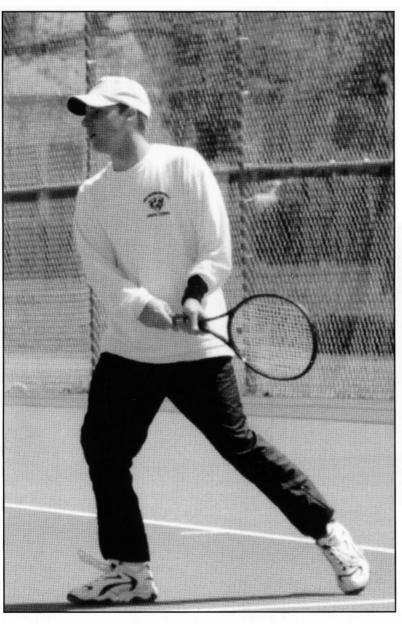

"Atthe beginning of the season, our focus was on winning matches. By the end of the season our focus was more about the personal relationships we built and supporting the team in our efforts.

Readyfor anything, Greg Myers Myers awaits his opponent's next serve.

S ending it with authority, Brent Gay rips a powerful serve at his opponent.

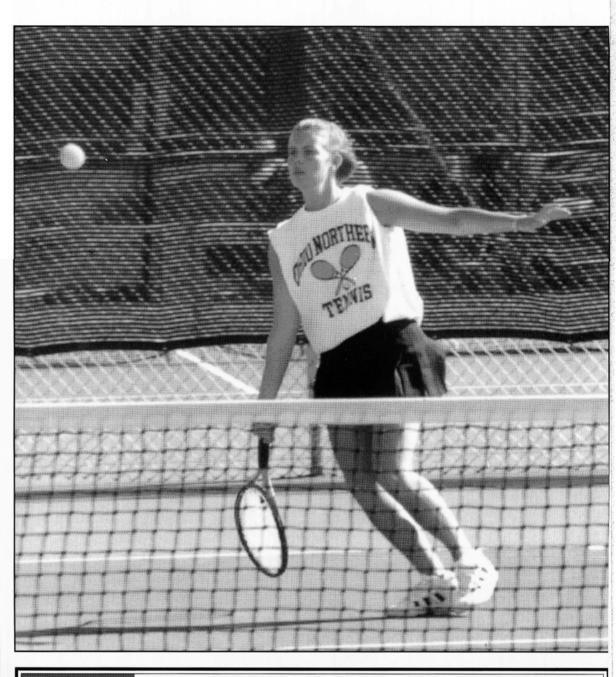

In perfect position, Heather Bennett prepares to send a scorching shot back at her opponent.

WOMEN'S TENNIS

Crosscourt volleys galore

Amanda Rybarczyk

The ONU Women's Tennis team played out a successful season, ending with a winning record, both in the regular season and in Ohio Athletic Conference (OAC) play. The regular season record posted 12 wins, 4 losses, and the OAC 'record posted 7 wins, only 2 This shows an losses. outstanding effort by all members of the team who came together and were able

to play in order to accomplish their victories.

After spending spring break in Hilton Head, South Carolina, training and working on their skills, the women's tennis team was able to enter the season strong and ready for action. With the leadership of their seniors throughout the year, the team's combined effort and unity worked in their favor. Senior Kris Kuhlman commented on the team, "We had unity on the team -everyone got along well. We

had a great overall season and with only a little more effort could have won the OAC."

A few ONU players received individual honors throughout the season, being recognized for their outstanding play. The OAC honors athletes each week of the season with a Player of the Week honor, and this season, senior Marianne Thompson was named twice and freshman Carey Richards was named once. This is quite an honor as only four weeks of honors were handed out. Also, senior Jen Adams won the Singles OAC Championship, and Adams and Kuhlman won the OAC Doubles Championship.

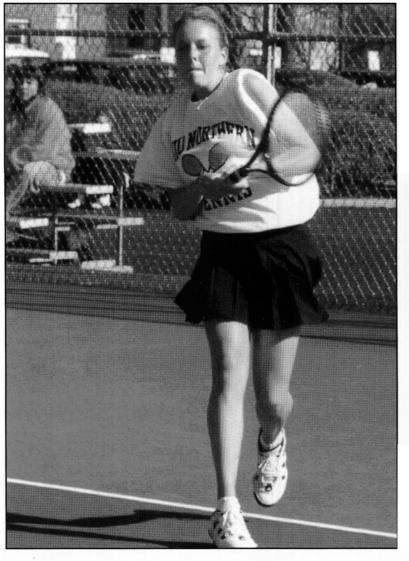

During the challenging season, the team was able to accomplishmuch through their efforts. Coming off the

successful season last year, Thompson said about this year's season, "The team worked well together and had a great season. For my senior year, it could not have been spent with better teammates. We played together and supported each other.

"Wehad unity on the team -- everyone got along well. We had a great overall season and with only a little more effort could have won the OAC."

Yoing for the **U**backhand winner, Jody Gilkey puts some mustard on this crosscourt volley.

Easily handling the drop shot, Kris Kuhlman figures out how to set up her opponent for defeat.

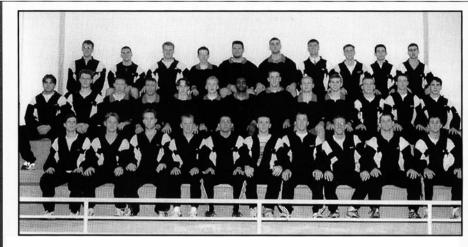

Did you know...

Going into the 1998-99 campaign, Mandy Miller was the active leader in OAC championships with seven to her credit. However, she needs to double that if she is to catch he all time leader, Matt Wolf, who has 14.

etting it fly, Aaron Brown wings the discus with perfect form.

ALL-AMERICANS

Raising sfandards fo a new level

Ohio Northernjunior Steve Vagedes, who hails from Coldwater, Ohio, was an All-American athlete in both football and outdoor track.

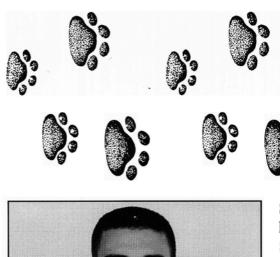

Vagedes was named to the 1998 Burger King Division III Coaches' All-America Team as a punter by the American Football Coaches Association (AFCA) in Waco, Texas. The AFCA

has selected an All-America team annually since 1945, which is made up of only 25 players and consists of only a

and First Team. Vagedes averaged a school-record 42.6 yards per was kick for the Polar Bears this 1998 fall. He punted 34 times for 1449 yards. He had nine kicks downed inside the opponent's 20-yard line and had a long kick of 68 yards against the Baldwin-Wallace. Vagedes is the third Ohio Northern player in the last four years to receive AFCA All-America honors.

In addition, Vagedes earned All-America honors with an eighth place finish in the men's long jump at the NCAA Division III Outdoor Track and Field Championships at Baldwin-Wallace's George Finnie Stadium. Vagedesjumped 23' 8 1/4" in his fifth jump to become a two-sport All-American. The top eight finishers in each event earn All-America status in outdoor track and field.

Steve Vagedes is in his third year at Ohio Northern and is pursuing a major in the area of wellness.

O hio Northern senior guard Kevin

Sensabaugh, who hails from Spencerville, Ohio, was named as a Second Team All-American by the N a t i o n a l Association of B a s k e t b a l l Coaches.

Sensabaugh finished his senior season ranked fifth in the Ohio Athletic

Conference (OAC) in scoring, averaging 16.8 ppg. He led

the league in steals (2.82 spg) and assists (6.11 apg), ranked second in the league with an average of 3.18 three-point field goals per game and was third in three point shooting at 44.9 percent. Sensabaugh is ONU's all-time leading three-point field goal shooter with 255 and ranks among the top 20 all time at ONU in scoring (12th), steals (2nd), assists (2nd), andblockedshots (5th).

He set ONU single season records this year with 89 three-point field goals and 171 assists.

Sensabaugh was also named 1999 OAC player of the year.

Kevin Sensabaugh is inhis final year at Ohio Northern and received his degree in Elementary Education during commencement.

Editor's note: The information in both stories was taken from news releases issued by the ONU Office of Sports Information directed by **Tim Glon.**

CHEERLEADERS

Using their motivational tools

Brenda Swihart Meyer

he 1998-99Ohio Northern 1 University varsity cheerleaders had an exciting year of cheering on the Polar Bears...something they love

doing! This year's spirited squad of cheerleaders spent hours perfecting routines, working on stunts and creating new cheers and chants. All this hard work paid off every time they used a flip or a chant to encourage the

crowds to ioin in and cheer the Bears on to victory.

Senior Heather Westbrook knows what required to become successful. h

commented, "We all worked together to provide a year of exciting performances along the sidelines."

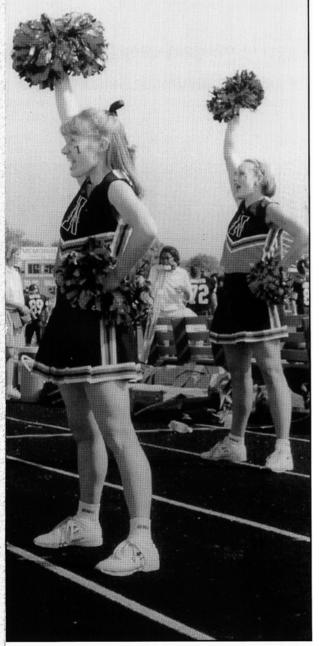

Senior Kathryn Henderson, captain of the squad this year, enjoyed the time she has spentcheering on the Bears. She had this inspiring statement to motivate the younger and future cheerleaders to have the same enthusiasm she holds for leading the crowd. She said, "Cheerleading is so much fun! It's also a lot of hard work that people don't see, but it's all worthwhile when the fans join in and really get into the game. Nothing is better than cheering on the Bears and being a part of the teams - no matter what the final score!"

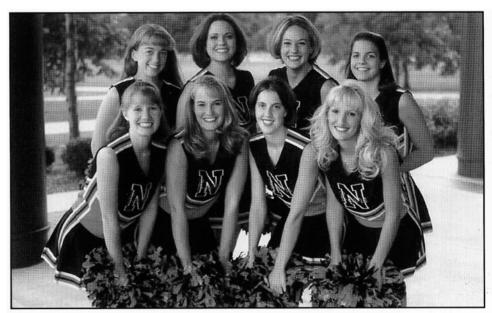

Heather Westbrook

"We worked together to provide a year of exciting performances along the sidelines."

Putting it All Together Northern Yearbook

Did you Know,,

Between the 1996-97 school year and the 1998-99 school year we increased the number of individual photos in the academics section by 578 students.

Blythe Phillis

he Northern Yearbook is **L** comprised of a diverse group of students whose main goal is to publish a memorable book for ONU students and staff. Throughout the year the staff tries to capture campus activities in pictures so a book can be produced to reflect that academic year.

Throughout this school year have we accomplished many goals. Our thirteen member staff distributed more books this year that last year, we increased the number of individual photos from 1238to 1328and we met all our deadlines.

The use of current technology allows us to be flexible in selecting the individual pictures. Through future upgrades, we will increasethe quality of the Ohio Northern Yearbook. With the help of all faculty, students

and staff, we would like to further enhance the yearbook.

We are planning several new designs for the book. In the future, we hope to include more individual, organizational, faculty and candid photos.

The yearbook staff would like to thank all those involved with helping us create a beautiful and memorable book.

 F_n joying dinner at the Outback Steak Beth House. Mittelmeier, Alisa Dentinger, and Amanda Rybarczyk celebrate their hard work for the yearbook staff.

A look back at the Twentieth Century

The years from 1900 to 1999 have seen many different people influence our culture in numerous ways. Many events that have occurred during this time period have revolutionized the way we live today. Come with us as we highlight some of the important achievements and events of the twentieth century as we approach the year 2000 and the beginning of a new millennium.

Wilbur and Orville Wright were aviation pioneers and inventors. They showed mechanical genius from boyhood, and in 1882 the Wright brothers opened a bicycle sales and repair shop in Dayton, Ohio. Reading about experiments with gliders spurred their interest about flying and they built their first glider in 1899. They made their first trip to Kitty Hawk, NC, in 1900 to conduct glider experiments on the sand hills there. They also built a powerful four-cylinder engine and an efficient propeller, which they took to Kitty Hawk in September, 1903. Bad weather delayed the testing of this aircraft until December 17. Orville piloted it on a flight of 12 seconds and 120 feet; Wilbur flew later in the day, staying aloft for 59 seconds to cover 852 feet. The two brothers built two sturdier, more reliable planes over the next two years and in 1906received a U.S. patent for a powered aircraft.

Most products used today by people in industrialized nations are turned out swiftly by the process of mass production by people (and sometimes robots) working on assembly lines using powerdriven machines. People in earlier centuries had to spend long, tedious hours of hand labor even on simple objects. The Industrial Revolution is the name given the movement in which machines changed people's way of life as well as their methods of manufacture. In the early part of the twentieth century, more and more industries used interchangeable parts and machine tools. In 1913, Henry Ford introduced the assembly line in the manufacture of his Model T Ford. Parts were assembled on a moving conveyor belt, and the car took shape as it moved from one work station to the next.

World War I began in 1914 and ended in 1918. It started as a local European war between Austria-Hungary and Serbia on July 28,1914. It was transformed into a general European struggle by declaration of war against Russia on August 1,1914. Eventually, it became a global war involving 32 nations. The immediate cause of the war between Austria-Hungary and Serbia was the assassination of Archduke Francis Ferdinand, heirpresumptive to the Austrian and Hungarian thrones. However, the fundamental causes of the conflict were rooted deeply in the European history of the previous century, particularly in the political and economic policies that prevailed on the Continent after 1871, the year that marked the emergence of Germany as a great world power.

Throughout most of history women generally have had fewer legal rights and career opportunities than men. Wifehood and motherhood were regarded as women's most significant profession. That all changed in the twentieth century. The Women's movement had arrived. Women in most nations won the right to vote and increased their educational job opportunities. Perhaps, most importantly, they fought for - and to a large degree accomplished - a reevaluation of traditional views of their role in society. In 1919 Congress passed the women's suffrage bill, and the 19th Amendment to the Constitution became law on August 26, 1920.

President Herbert Hoover called Prohibition a "noble experiment." Organized crime found it to be the opportunity of a lifetime. And, millions of Americans denounced it as an infringement of their rights. For nearly 14 years - from January 29, 1920 until December 5, 1933 - the manufacture, transportation and sale of alcoholic beverages was illegalin the United States. The 18th Amendment to the Constitution was passed by Congress over President Woodrow Wilson's veto. The stage was set for more than a decade of combat between the "wets" and the "drys" those determined to keep drinking and those determined to enforce the law. In retrospect, the period was called the Roaring Twenties and the Jazz Age.

of stock were sold on that day. Tuesday, October 29 - known ever since as Black Tuesday - the damage was extended when more than 16 million shares were sold. The value of most shares of stock fell sharply, leaving financial ruin and panic in its wake. There had been financial panics, but never did a collapse in the stock market have such a devastating and long-term effect. Like a snowball rolling down a hill, it gathered momentum and swept away the whole economy.

The Great Depression began after the stock market crash of 1929. Businesses closed, putting millions out of work. Banks failed by the hundreds. Wages, for those still fortunate enough to have a job, fell precipitously. The value of money decreased as the demand for goods declined. The international structure of world trade collapsed, and each nation sought to protect its own industrial base by imposing high tariffs on imported goods. This only made matters worse. And by the fall of 1931, the international gold standard had collapsed, further damaging any hope for the recovery of trade. By 1932, industrial output in the U.S. had been cut in half. One-fourth of the labor force about 15 million people - was out of work, and there was no such thing as unemployment insurance. The economic crisis was not completely solved until World War II began and triggered huge demands for industrial and agricultural productivity.

World War II was a global military conflict that, in terms of lives lost and material destruction, was the most devastating war in history. It began in 1939 as a war in Europe between Germany and an Anglo-France coalition, but eventually widened to include many of the nations of the world. Germany, Italy and Japan had been dissatisfied with the outcome of World War I. Germany, the principle defeated nation, bitterly resented the territorial losses and reparations payments imposed on it by the Treaty of Versailles. WWII ended in 1945, leaving a new world order dominated by the U.S. and the USSR. One of the most memorable moments caught on film during World War II was the flag-raising on the island of Iwo Jima in the Pacific.

The Atomic Bomb was the first nuclear weapon to be developed, tested and used. In the late 1930s, physicists in Europe and the U.S. realized that the fission of uranium could be used to create an extremely powerful explosive weapon. In August, 1939, German-American physicist Albert Einstein sent a letter to President Franklin D. Roosevelt that described this discovery and warned of its potential development by other The U.S. government nations. established the top secret Manhatten Project in 1942 to develop an atomic device. The first atomic explosion was conducted as a test at Alamgordo, NM, on July 16, 1945. The energy released from this explosion was equivalent to that released by the detonation of 20,000 tons of TNT.

The State of Israel declared its independence on May 14, 1948. However, its modern history begins with the Zionist movement founded in 1897. Its basic ideology adopted as its goal the creation of a home in Palestine. The number of Jews in Palestine in the early part of the twentieth century was about 85,000. After World War I, Great Britain was entrusted to administer Palestine and assist the Jewish people in "reconstituting their national home in that country." The Jewish community increasedtenfoldduringthe 1930s, when large numbers of Jews fled Europe to escape persecution by the Nazis. In 1947, Great Britain turned Palestine over to the United Nations. The Arab countries failed to prevent the establishment of the Jewish state after being defeated in war.

Baby Boomers was a term used to describe the generation born after World War II between 1946 and 1964. Birthrates during that time reached the highest levels since 1910, and these babies became known as Baby Boomers. The likes and dislikes of this large demographic block had unprecedented effect on national culture and economic plans. In the U.S. alone they numbered 76 million. They grew up in an era of pervasive prosperity, the likes of which had never been seen before. They were the first to grow up with television and the threat of nuclear war. And, the postwar years saw a migration from the cities to the suburbs, prompting a building boom in housing, schools and malls. By the 1990s, the Baby Boomers were entering middle age.

The first "computer" was used in 1623 when German scientist Wilhelm Schikard invented a machine that used 11completeand6incompletesprocketed wheels that could add with the aid of logarithm tables, multiply and divide. A few centuries later, John Mauchly and J. Presper Eckert built the first electronic digital computer at the University of Pennsylvania. The Electronic Numerical Integrator and Computer (ENIAC) was completed in 1945. It weighed more than 60,000 pounds and contained more than 18,000 vacuum tubes. Mauchly and Eckert went on to produce the Universal Automatic Computer (UNIVAC), which had a broader range of use. Today's PC is 400 times faster than ENIAC, 3,000 times lighter and several million dollars cheaper.

During the first half of the twentieth century, polio was one of the most dreaded diseases to attack young people. By 1955, American physician and researcher, Jonas Salk, developed a vaccinethat almosteradicated the disease in the United States and other developed countries. Salk was born in 1914 and graduated from the City College of New York in 1934. Five years later he earned a doctorate in medicine from New York University's College of Medicine. In 1947 Salkbecame associate professor of bacteriology and head of the Virus Research lab at the University of Pittsburgh School of Medicine. There, he began working on the polio vaccine. By 1952, Salk had conducted field tests on children. On April 12, 1955, the vaccine was released for use in the U.S. Heddaeus, Erin 143 Hefner, Darvl 56 Heft, Matt 50, 51, 62, 63, 199, 203, 208, 209, 218 Hehr, Scott 98, 203, 205, 217 Heigley, Andrew 62, 205 Heil, Michelle 179, 198, 203, 206, 214 Heinecke, Jamie 112, 155, 206, 218 Heising, Kami 209 Heitkamp, Eric 98, 160 Heitkamp, Mike 166 Heitmeyer, Josh 141 Heitzman, Jennifer 98 Hellemn, John 141 Helser, Sara 91 Hemberger, Rachel 112, 203 Heminger, Megan 142, 218 Hemmelgarn, Dan 160, 161 Henderson, Kathryn 98, 151, 193 Hendricks, Mike 180 Hendrickson, Shannon 211 Henson, Roy 180, 181 Herbe, Melissa 98, 220 Herd, Jason 146 Hermiller, Brian 62, 199, 202, 203, 209 Hermiller, Jason 98, 200, 203, 209 Hermiller, T. Early in the morning of June 25, 1950, the armed forces of communist North Korea smashed across the 38th parallel of latitude and invaded the Republic of Korea. South Korea's army was smaller and not as well trained and equipped. It was unable to stem the onslaught of North Korea. By June 28, Seoul had fallen and South Korea's army was in full retreat. In response, 16 nations sent troops to the aid of South Korea. The United States sent an army. And soon afterwards, China came to the aid of North Korea. It wasn't until July, 1953, that a peace treaty was signed - three years and 32 days after the conflict began.

There were four countries that were divided during the years after World War II as a result of global Communist strategy: China, Germany, Korea and Vietnam. From 1946 until 1954, the Vietnamese struggled for their independence from France during the First Indochina War. At the end of this war, Vietnam was split into South Vietnam with a republican government, and North Vietnam with a communist government. The U.S. became involved in Vietnam because it believed that if all of the country fell under a communist government, communism would spread throughout Southeast Asia and beyond. In 1965, the U.S. sent in troops to prevent the South Vietnamese government from collapsing. The U.S. failed to achieve its goal, and in 1975Vietnam was reunified.

The Beatles were a British pop group formed in Liverpool, England, in 1960. The group consisted of John Lennon, Paul McCartney, George Harrison and Ringo Starr. "Love Me Do" became a huge hit in 1962, and during the next two years Beatlemania spread around the world, buoyed by international hits such as "She Loves You" and "I Want to Hold Your Hand." At appearances around the world, the group projected a carefree, somewhat cynical image that influenced the attitudes of its teenage admirers, just as the Beatles' long hair and granny glasses influenced the popular look. The image was sustained in their films A Hard Day's Night in 1964 and Help! a year later. The group dissolved in 1970

In November, 1960, at the age of 43, John F. Kennedy became the youngest man ever elected President of the United States. He was also the first Roman Catholic President and the first President to be born in the twentieth century. Kennedy was inaugurated in January. 1961, succeeding Republican President Dwight D. Eisenhower. He defeated the Republican candidate, Vice President Richard M. Nixon, by little more than 100,000 votes. It was one of the closest elections in the nation's history. Before he completed his third year as president, Kennedy was assassinated in Dallas, Texas on Nov. 22, 1963. achievements were, therefore, limited. Nevertheless, his influence was worldwide, and his handling of the Cuban missile crisis may have prevented war.

Morrow, Donald 141

The long-awaited goal of landing a man on the moon was achieved in 1969. The historic flight of Apollo 11 was launched on July 16. After entering lunar orbit, astronauts Edwin E. "Buzz" Aldrin, Jr. and Neil A. Armstrong transferred to the lunar module, or LM as it was called. Michael Collins remained in lunar orbit following the separation and piloted the command module. The LM descended to the surface of the moon on July 20, landing at the edge of Mare Tranquilitatis. A few hours later, Armstrong, in his bulky space suit, descended the ladder and at 10:58 PM EDT stepped onto the surface of the moon, while millions watched on television. His first and forever famous words were: "That's one small step for man, one giant leap for mankind.

Richard M. Nixon was the first U.S. President to resign his office. He began his political career in 1947 when he won a seat in the U.S. House of Representatives in a campaign noted for his accusation that his Democratic opponent was supported by communists. He then went to the Senate in 1951 and became Dwight D. Eisenhower's Vice President in 1952. After narrowly losing the Presidency to John F. Kennedy in 1960, he lost a bid for governor of California in 1962, apparently ending his political career. But, he came back to win the presidency in 1968, promising a quick end to the Vietnam war - but in reality he enlarged it. Reelected in 1972, Nixon was brought down by the "Watergate" scandal. Facing impeachment, he resigned in Aug., 1974.

The disease known as AIDS is a complicated illness caused by a virus that can be transmitted from person to person. Acquired Immunodeficiency Syndrome was first conclusively identified in the U.S. in 1981 when 189 cases were reported to the Centers for Disease Control. Within a decade the disease had spread to virtually all populated areas of the world. The origin of the AIDS virus is uncertain, but it may have originated in Central Africa. Public awareness of the disease gradually built up as high-profile victims began to die: actor Rock Hudson in 1985 and clothes designer Perry Ellis in 1986. When basketball superstar Magic Johnson announcedin 1991 that he had contracted the AIDS virus, the feeling spread quickly that anyone could be at risk.

The Space Shuttle Challenger blasted off from the Kennedy Space Center on Jan. 28,1986. A brief 73 seconds later it exploded, killing its crew of seven mission commander Francis Scobee; pilot Michael Smith; mission specialists Ronald McNair, Ellison Onizuka and Judith Resnik; and payload specialists Gregory Jarvis and Christa McAuliffe. Ms. McAuliffe was a high school teacher from New Hampshire. This was the worst space disaster in history. Following the incident, President Ronald Reagan appointed a special commission to investigate the cause of the accident. According to the report, the disaster was caused by the failure of an "O-ring" seal in the solid fuel rocket on the shuttle's right side. The shuttle program was halted until design changes were made.

The Berlin Wall was built in 1961 as a highly visible symbol of the Cold War. At the end of World War II in 1945, the city of Berlin was partitioned into East and West Berlin. Between 1949, when East Germany was established, and the middle of 1961, nearly three million people fled East Germany. In 1961 the East Germangovernment decided to stop this flight. During the night of Aug. 13, 1961, East German soldiers surrounded West Berlin with temporary fortifications that were rapidly replaced by a concrete wall. Few East Germans were able to escape and many died trying. In the fall of 1989, the East German regime was on the verge of collapse. On Nov. 9, 1989, citizensbegan to demolishentire sections of the wall without opposition. In 1990, East and West Germany reunited.

Between 1945 and 1975 the number of countries under communist rule increased greatly. By the 1980s, the USSR had become the world's secondranking industrial power. Its armed might and industrial potential were backed by important scientific advances and by a generally high level of technical education. The living standard had risen appreciably since World War 11. Toward the end of the decade, however, it became increasingly apparent that Soviet communism was in crisis. An upsurge of nationalism within the Soviet republics, coupled with resentment of decades of economic scarcity and arbitrary rule, spurred a challenge to the foundations of communism and the legitimacy of the Soviet state. By the end of 1991, the USSR had dissolved.

House Judiciary Committee Chairman Henry Hyde, a Republican from Illinois, led the House of Representatives in the impeachment of President Clinton. Hyde then delivered the Articles of Impeachment to the U.S. Senate. A vote to dismiss the case against the President failed, 43-57. The trial to remove Clinton from office continued, with the Senate not finding a removable offense.

Hurricane Georges was the costliest disaster in the 117 years of Red Cross relief efforts, topping the \$81.5 million the agency spent on Hurricane Andrew. Georges ripped through the Florida Keys and into the Gulf of Mexico before slamming into Mississippi and Alabama. Preliminary industry estimates put Georges' cost to insurance companies at \$2.5 billion, the third-costliest such storm on record. Georges' costs rank behind Hugo in 1989 and the number one hurricane for damage - 1992's Andrew.

U.S. SenatorJohn Glenn ended his long career in the U.S. Senate with a return to space. Astronaut Glenn, 77, who made a pioneering space flight in 1962, returned to space in November, 1998, aboard the space shuttle Discovery on a 10-day mission.

Pope John Paul II began his 2 1st year as Pope in the fall of 1998. The 78-year-old Pontiff continued to be a champion of economic justice and an outspoken defender of the Catholic Church Communist countries and remained uncompromising on moral issues. Noted for his energy and analytical ability, he traveled to many countries. preaching to huge audiences. In 1981, he survived an assassinationattempt, when he was shot during an appearance in St. Peter's Square.

The New York Yankees wona record 24th World Series championship with a sweep of the San Diego Padres. In addition to dominating the Series, the Yankees dominated the 1998 baseball season. They finished the year with an overall record of 125-50 - the best ever. Scott Brosius, the Series MVP, is seen here at the plate in the third game of the World Series.

Quarterback John Elway led the Denver Broncos to a 34-19 win against the Atlanta Falcons in Super Bowl XXXIII at Pro Player Stadium in Miami. The Broncos scored 17 points in the game's first half and then 17 more in the fourth quarter. This was the Broncos' second consecutive Super Bowl Championship, as they beat the Green Bay Packers in Super Bowl XXXII.

The World Cup competition is held every four years. The 1998 games were held in France and it was won by the French team for thatnation's first-everWorld Cup titleby defeatingBrazil 3-0. More than a million revelers packed the historic Champs-Elysees to celebrate the victory. The broad avenue became the focal point of celebrations and many called the impromptu streetparty the largest outdoor celebration since Liberation Day in 1944.

Mark McGwire and Sammy Sosa, two power-hitters in the game of baseball, were in a battle of home runs during the summer of 1998. Both were looking to beat the home run record of 61 set by New York Yankee Roger Maris in 1961. On September 8, 1998, McGwire belted his 62nd home run of the season off of Chicago Cubs pitcher Steve Trachsel to break the record. McGwire finished the season with 70, while Sosa finished with 66 home runs.

The End of a Millennium

Did you know...

The ONU campus has published a yearbook every year since 1910.

This was the first year I was Editor-in-Chief. I learned a great deal about time management, deadlines, balancing accounts and patience. I want to first and foremost thank our advisor, Melanie Caw Woods, for giving me this opportunity and for working out all those (what seemed to me) devastating kinks. You are awesome.

Next is the yearbook staff. Whenever I had a computer problem or I needed someone else's input, **Dave Mack**

A fter a soccer game, Tami Harter poses for a picture with her roommate, Blythe Phillis.

losing

was there to help. Thanks, Dave. I would like to thank Stephanie Jackson for her diligent and hard work on finding people to write and for getting the job done. A special thanks goes to Steven Meek for attending campus events to take picutres. I would also like to thank Amanda Rybarczyk for jumping into the business editor position and keeping us in contact with faculty and students. Thank you to all the photogapers: Nathan Gabriel and Adam Garon, writers: Beth Mittelmeier, Mary Rinkoski and Amanda Rybarczk and designers: Alisa Dentinger, Cathy Hunt, Brandee Pearson and Damien Tomkins. Thank vou to all students and staff who submitted a story or picture.

I would like to thank **Ann Casper** for helping me find storage for the books and for booking all our meetings. Public Information and Sports Information gave

us pictures, sports scores and interesting facts, and worked with the yearbook staff to ensure all events were covered. The ONU Bookstore and faculty helped me order supplies. Residence Life, Head Residents and each department helped us distribute the books in an organized manner. Bob Beer allowed us to use the campus wide e-mail for our survey. However, the biggest thanks goes to all the students, faculty, staff and guests who allowedus to capture this year's memories to publish in the yearbook.

The 1998-1999 yearbook held many surprises for us and we were thankful for the support and understanding of all those individuals who helped us out.

Sincerely, **Blythe Phillis**Editor-in-Chief
